advantage from the status quo and therefore pose the greatest threat under control There was and is one system of justice for the privileged and a very different system for the less privileged The criminal justice system from the law to daily operations of the police courts and corrections generally comes down hardest on those with the least amount of power and influence and is the most lenient with those with the most power and influence The book raises critical questions What is a crime What is law Whose interests are served by the law and the criminal justice system What patterns are repeated generation after generation How does the criminal justice system relate to larger issues such as social inequality social class race and gender Contemplation of these topics contributes to informed public dialogue and careful deliberation about the present state and the future of criminal justice
