Paramedic Med-Math Made Easy MS Bsn Diane Pettway, RN,2008-09 As an emergency care professional you save lives every day And while physicians will order various

medications to be administered he or she may not know the strengths or amounts of medication you have available in your ambulance. You therefore must convert what you have on hand into an equivalent dose to match the physician's orders. Paramedic Med Math Made Easy provides step by step instructions for the most common every day formulas you'll use in the field. In its easy to understand format you'll quickly grasp how to convert pounds to kilograms, teaspoons to milliliters or grams to milligrams. With the equivalents and formulas laid out Paramedic Med Math Made Easy then provides examples showing how formulas are used along with guidelines to help you understand each calculation. Also included are practical application problems and their answers. Each scenario illustrates how the application or conversion should be set up so you can clearly see and understand how the calculation works and where pitfalls may occur. Admittedly you can choose among several math formula methods to calculate proper doses to administer. Most important though is deciding what method works best for you, the one that prevents you from making any errors. Paramedic Med Math Made Easy will help you do just that.

Pathophysiology Made Incredibly Visual! Lippincott Williams & Wilkins, 2008. A comprehensive guide to pathology uses cartoons and detailed illustrations to help explain basic concepts, presenting symptoms, risk factors and causes of disorders and diseases that occur all over the body.
