*Jacques Derrida and the Institution of French Philosophy* Vivienne Orchard,2017-12-02 Jacques Derrida 1930 2004 was unquestionably one of the most celebrated and reviled French thinkers of the last thirty years Outside France his influence in comparative literature circles through deconstruction and other ideas has been so profound that his personal role as a leader of contemporary French philosophy has been almost overlooked Perhaps because there is no equivalent in English speaking countries to the timetabling of philosophy in the French education system writers on Derrida outside France have not fully appreciated the importance of this political and cultural struggle In this ground breaking book Orchard examines a hard fought debate of great importance not only to Derrida himself but also to France s idea of what studying philosophy might mean after the student uprisings of 1968 **Globalizations and Emerging Issues in Trade Theory and Policy** Hamid Beladi,Kwan Choi,Binh Tran-Nam,Ngo Van Long,Makoto Tawada,2008-10-01 Presents a collection of research findings on topical issues in international trade theory and policy This work deals with trade liberalization and outsourcing It examines trading clubs and preferential trading agreements It features six chapters on the various aspects of trade and aid

Dutch Messengers Cornelis Dirk Andriessse,2008 In this pioneering work based upon interviews with many of the surviving protagonists Cornelis Cees Andriessse tells the story of the role that Dutch publishing houses played in the rise of English language commercial science publishing after the Second World War that was preceded by the decline of science publishing in German Using the existing literature as well as many privately held archival sources the author follows the fortunes of the leading publishers Martinus Nijhoff Elsevier and North Holland while also briefly discussing smaller houses like Dr W Junk and Reidel The book contains lively portraits of the main characters involved and will no doubt stimulate further research and discussion of the role of publishing in the history of science The authorsa TM main thesis that successful publishing requires a strong fruitful partnership between an academic publisher and an academic editor will no doubt convince most readers This is a great book on the most productive friendships and partnerships in the history of science publishing **Valuepack** Ian Jacques,Michael Barrow,2006-07-01 Mathematics for Economics and Business 5 e

### **Religion, Education and Human Rights**

Anders Sjöborg,Hans-Georg Ziebertz,2017-04-13 This book examines the interconnectedness between religion education and human rights from an international perspective using an interdisciplinary approach It deals with compulsory or secondary school education in different contexts as well as higher education and has as its common theme the multiplicity of secularisms in different national contexts Presenting rich cases the contributions include empirical and theoretical perspectives on how international trends of migration and cultural diversity as well as judicialization of social and political processes and rapid religious and social changes come into play as societies find their way in an increasingly diverse context The book contains chapters that present case studies on how confessional or non confessional Religious Education RE at schools in different societal contexts is related to the concept of universal human rights It presents cases studies that display an intriguing array of problems that point to the role of religion in the public sphere and show that historical contexts play important and different roles Other contributions deal with higher education where one questions how human rights as a concept and as discourse is taught and examines whether withdrawing from certain clinical training when in university education to become a medical doctor or a midwife on the grounds of conscientious objections can be claimed as a human right From a judicial point of view one chapter discerns the construction of the concept of religion in the Swedish Education Act in relation to the Swedish constitution as well European legislation Finally an empirical study comparing data from young people in six different countries in three continents investigates factors that explain attitudes towards human rights

*The Polymath* Peter Burke,2020-09-08 The first history of the western polymath from the fifteenth century to the present day From Leonardo Da Vinci to John Dee and Comenius from George Eliot to Oliver Sacks and Susan Sontag polymaths have moved the frontiers of knowledge in countless ways But history can be unkind to scholars with such encyclopaedic interests All too often these individuals are remembered for just one part of their valuable achievements In this engaging erudite account renowned cultural historian Peter Burke argues for a more rounded view Identifying 500 western polymaths Burke explores their wide ranging successes and shows how their rise matched a rapid growth of knowledge in the age of the invention of printing the discovery of the New World and the Scientific Revolution It is only more recently that the further acceleration of knowledge has led to increased specialisation and to an environment that is less supportive of wide ranging scholars and scientists Spanning the Renaissance to the present day Burke changes our understanding of this remarkable intellectual species

**Who's who in Economics** Mark Blaug,1986 This edition includes

337 more entries bringing the total to over 1 400 thumbnail sketches of economists who have contributed to the literature

over the past three centuries      *Does Economic Space Matter?* Hiroshi Ohta, 1993-09-15 This is a Festschrift to honour Professor Melvin Greenhut who has long toiled on spatial economics The book accordingly focuses on a single question in what sense economic space matters in economic theory Space in economics is an elusive concept apparently separating and embracing economic agents at the same time This is why adding it to already overly complicated economic agents at the same time This is why adding it to already overly complicated economic models may not necessarily help economics to become sufficiently realistic In this book leading scholars of international stature try to find ways of introducing space in economic theory which will make it simpler and more realistic analysing theoretical and historical issues of contemporary relevance such as land use congestion and public goods location theory and spatial competition
