Disciplinary Styles in the Scholarship of Teaching and Learning Mary Taylor Huber,Sherwyn P.

Morreale,2023-07-21 Ten sets of disciplinary scholars respond to an orienting essay that raises questions about the history of

discourse about teaching and learning in the disciplines the ways in which disciplinary styles influence inquiry into teaching and learning and the nature and roles of interdisciplinary exchange The authors hope to contribute to a common language for trading ideas enlarging our pedagogical imaginations and strengthening our scholarly work Disciplines represented chemistry communication studies engineering English studies history management sciences mathematics psychology and sociology A collaboration of The Carnegie Foundation for the Advancement of Teaching and AAHE Voices of the Field Antione D. Tomlin, Sherella Cupid, 2023-07-01 This book Voices of the Field DEIA Champions in Higher Education will explore the experiences and stories of Diversity Equity Inclusion and Anti racist DEIA champions and leaders within higher education There is no doubt that in response to the United States current racial climate that higher education institutions have DEIA at the forefront of their operations Consequently as a Black academic or Blackademic educator and DEIA champion I am not sure I always see institutions and organizations walking the walk and doing the work it takes to live up to those missions visions and strategic plans Tomlin 2022 para 1 From our experience this is partly because institutions do not know how to support and encourage all higher education professionals no matter working area gender or race to become more DEIA minded So this book will share stories of champions of DEIA along with how other higher education professionals jump in Like some of our other projects we approach this book from an asset based approach where chapter authors are taking more of an anti deficit approach So while each chapter author will explore the challenges and opportunities that come with being a DEIA champion within higher education we will not focus entirely on what higher education institutions or doing wrong rather how the tools tips and strategies provided can help support current and potential champions of the work and field One especially important contribution of this book is that authors come from many different spaces departments and divisions within higher education including admissions student life curriculum and instruction service learning alumni relations career services intercultural affairs and many others Additionally chapter authors demographics make up a wide range of ages ethnicities abilities and expertise Given the breadth of experiences each chapter will provide poignant suggestions for DEIA champions across the nation as well as for institutions who are looking to better understand advocate for support their own DEIA champions The work of DEI practitioners is a work that often goes unnoticed The long days nights exhaustion and lack of mental capacity due to constant going and potential burnout is the price practitioners pay to fight the fight of creating more equitable spaces Griffin 2021 noted The DEI practitioner is becoming a household name in some industries like education an emerging staple p xxv we agree with Griffin moreover these household names are not getting the attention respect or resources they need to continue being successful in their roles Additionally we add anti racist to DEI as being anti racist is an action We argue it is the action that brings all the other pieces of the work together Its the demonstration and active practice of fighting against racism that helps to shift and change a culture This book will aid in showing all higher education professionals some approaches to being more effective DEIA champions while also taking action and moving more

toward anti racism as a mindset and way of being Thus *Voices of the Field DEIA Champions in Higher Education* is positioned to be a must read for all higher education professionals and institutions who are looking for strategies to support promote and encourage the growth and development of DEIA champions **Putting the Humanities PhD to Work** Katina L.

This Notes volume is written expressly for collegiate mathematics faculty who want to know more about conducting scholarly investigations into their teaching and their students' learning. Envisioned and edited by two mathematics faculty, the volume serves as a how-to guide for doing SoTL in mathematics.
