

# Systems Investigation

In general, systems investigation attempts to uncover answers to the following questions:

- What primary problems might a new or enhanced system solve?
- What opportunities might a new or enhanced system provide?
- What new hardware, software, databases, telecommunications, personnel, or procedures will improve an existing system or are required in a new system?
- What are the potential costs (variable and fixed)?
- What are the associated risks?

This little book is a real gem. Professor Malcolm McDonald. Key account management is increasingly important and must keep pace with its customers as they continually develop and evolve often resulting in increasingly sophisticated buying structures. The key account manager therefore requires a wide variety of skills in order to be successful; this is not only an important job role in its own right it is often a stepping stone to career development leading to more senior management jobs. [Successful Key Account Management In A Week](#) is a week long course. On Sunday you are encouraged to Know your customer as success depends on a relationship that is both rewarding and valuable. On Monday you will Analyse your growth opportunities. The competitiveness of the company must be appraised to enable the identification of sales growth opportunities and all major accounts should be compared in appeal and position to give an indication of the strategy to be adopted for customers. On Tuesday you will Measure profits by account. You will be shown how to measure the profitability of major customers and to draw up league tables to enable profit improvement strategies. On Wednesday you will Plan for success building on the analysis of growth opportunities and profit measurement already considered to result in a best judgement final plan. On Thursday you will learn to Negotiate to win win success relies on understanding the difference between negotiation and selling and being able to

conduct negotiations to produce a win win situation in which the objectives of both sides are considered On Friday you will look at Control activity levels and the monitoring of standards of performance to enable the presentation of plans and progress allowing the measurement of success against these plans And finally on Saturday you are reminded to Manage relationships with an introduction to the Relationship Model which describes how business with a customer changes as it moves from a transactional or short term sales achievement to collaboration with long term customer value and retention This little book is a real gem which you should read use and keep handy for continuous reference If you follow the straightforward guidelines in this book your company s future is assured Professor Malcolm McDonald Former Professor of Marketing and Deputy Director Cranfield University School of Management     A Study of Ethical Principles ...
