## **iWork The Missing Manual Missing Manuals:**

iWork: The Missing Manual Jessica Thornsby, Josh Clark, 2014-03-18 Apple's iWork is more versatile than ever now that there are versions for Mac, iOS, and even iCloud. The only thing iWork doesn't include is its own how-to guide. That's where this friendly jargon-free Missing Manual comes in. With complete instructions and helpful examples, you'll quickly learn how to create stunning documents, slideshows, and spreadsheets with iWork's Pages, Keynote, and Numbers. The important stuff you need to know. Create elegant files in minutes. Save tons of time by using iWork's collection of prebuilt templates and themes. Craft a variety of documents. Use Pages to design attractive newsletters, catalogs, brochures, flyers, and posters. Build eye-popping presentations. Turn Keynote's themes and easy-to-use cinematic effects into beautiful custom slideshows. Organize and clearly convey information. Jazz up your Numbers spreadsheets with charts, images, and videos. Always have your work on hand. Store your files in iCloud and have them sync automatically to your Mac and iOS devices. Work anywhere, any time. Use the web-based iWork for iCloud to create projects on any computer, even a PC. Versions covered: This edition covers Pages for Mac 5.1, Keynote for Mac 6.1, Numbers for Mac 3.1, version 2.1 of each iOS app, and iWork for iCloud.

**iWork '05: The Missing Manual** Jim Elferdink, 2005-09-21 Introduced by Apple in January 2005, iWork '05 is an innovative new suite of document and presentation software that's the same caliber as Apple's groundbreaking digital media applications and that's wholly dedicated to what Mac users like you care about most: artistry and creativity. iWork '05 isn't about office productivity; it's about creating slick and stylish documents and cinema-quality digital presentations that say precisely what you want them to say. While iWork '05 helps you create stunning documents and presentations, the suite doesn't come with any in-depth documentation of its own. That's where iWork '05 The Missing Manual comes in. The book that should have been in the box gives you everything you need to master iWork '05. Seamlessly integrated with the wildly popular iLife '05 and designed to take advantage of the advanced typography and graphics engine of Mac OS X, iWork is actually two separate programs: Pages and Keynote 2. Pages is a brand-new streamlined word processor and page layout program that allows nonprofessionals to quickly and painlessly produce gorgeous brochures, newsletters, letters, invitations, product data sheets, and more. You can start documents from scratch or use one of the 40 professionally designed templates as a starting point. Keynote 2 is a significant upgrade to Keynote, Apple's PowerPoint-like presentation software that allows you to build unique presentations, demonstrations, storyboard animations, interactive slideshows, and more. Like every Missing Manual, this one is refreshingly entertaining and scrupulously detailed. iWork '05 The Missing Manual gives you all the essentials of Pages and Keynote 2, including an objective look at each program's capabilities, its advantages over similar programs, and its limitations. The book delivers countless goodies that you won't find anywhere else: undocumented tips, tricks, and secrets for getting the very best results from both exciting new applications. With the iWork '05 suite and iWork '05 The Missing Manual, you are totally equipped to give your work the style it deserves.

**iWork '09: The Missing Manual** Josh

Clark,2009-04-23 With iWork 09 Apple s productivity applications have come of age Unfortunately their user guides are stuck in infancy That s where iWork 09 The Missing Manual comes in This book quickly guides you through everything you need to know about the Pages word processor the Numbers spreadsheet and the Keynote presentation program that Al Gore and Steve Jobs made famous Friendly and entertaining iWork 09 The Missing Manual gives you crystal clear and jargon free explanations of iWork s capabilities its advantages over similar programs and its limitations You ll see these programs through an objective lens that shows you which features work well and which don t With this book you will Produce stunning documents and cinema quality digital presentations Take advantage of Mac OS X s advanced typography and graphics capabilities Learn how to use the collection of themes and templates included with iWork Get undocumented tips tricks and secrets for each program Integrate with other iLife programs to use photos audio and video clips Learn why iWork is the topic most requested by Missing Manual fans One of the few sources available on Apple s incredible suite of programs iWork 09 The Missing Manual will help you get the best performance out of Pages Numbers Keynote and more in no time
