Foreword

Congratulations on your purchase of a Glpro-DS gear position indicator. The Glpro from HealTech Electronics Ltd. is the most advanced gear position indicator on the market today.

This product will fit all Honda fuel injected (FI) motorcycles which have on-board Diagnostic System connector. This connector is referred as DLC (Data Link Connector) in the Honda manuals.

Unlike other gear indicators available for your bike, this product connects to the diagnostic connector. It makes the installation very simple. The unit reads data from the ECU, offering faster and more reliable readings than competitive products.

The display is auto learning, there are no buttons and no "programming wire".

Known limitation: Honda motorcycles are not equipped with Gear Position Sensor, therefore determining the gear in use is only possible when the engine is running and the clutch is released.
