Beyer, 2012-02-10 The career of computer visionary Grace Murray Hopper whose innovative work in programming laid the foundations for the user friendliness of today s personal computers that sparked the information age A Hollywood biopic about the life of computer pioneer Grace Murray Hopper 1906 1992 would go like this a young professor abandons the ivy covered walls of academia to serve her country in the Navy after Pearl Harbor and finds herself on the front lines of the computer revolution She works hard to succeed in the all male computer industry is almost brought down by personal problems but survives them and ends her career as a celebrated elder stateswoman of computing a heroine to thousands hailed as the inventor of computer programming Throughout Hopper s later years the popular media told this simplified version of her life story In *Grace Hopper and the Invention of the Information Age* Kurt Beyer reveals a more authentic Hopper a vibrant and complex woman whose career paralleled the meteoric trajectory of the postwar computer industry Both rebellious and collaborative Hopper was influential in male dominated military and business organizations at a time when women were encouraged to devote themselves to housework and childbearing Hopper s greatest technical achievement was to create the tools that would allow humans to communicate with computers in terms other than ones and zeroes This advance influenced all future programming and software design and laid the foundation for the development of user friendly personal computers The Genius of Women Janice Kaplan, 2021-02-16 We tell girls that they can be anything so why do 90 percent of Americans believe that geniuses are almost always men New York Times bestselling journalist and creator and host of the podcast *The Gratitude Diaries* Janice Kaplan explores the powerful forces that have rigged the system and celebrates the women geniuses past and present who have triumphed anyway Even in this time of rethinking women s roles we define genius almost exclusively through male achievement When asked to name a genius people mention Albert Einstein Leonardo da Vinci and Steve Jobs As for great women In one survey the only female genius anyone listed was Marie Curie Janice Kaplan the New York Times bestselling author of *The Gratitude Diaries* set out to determine why the

extraordinary work of so many women has been brushed aside Using her unique mix of memoir narrative and inspiration she makes surprising discoveries about women geniuses now and throughout history in fields from music to robotics Through interviews with neuroscientists psychologists and dozens of women geniuses at work in the world today including Nobel Prize winner Frances Arnold and AI expert Fei Fei Li she proves that genius isn't just about talent It's about having that talent recognized nurtured and celebrated Across the generations even when they face less than perfect circumstances women geniuses have created brilliant and original work In *The Genius of Women* you'll learn how they ignored obstacles and broke down seemingly unshakable barriers The geniuses in this moving powerful and very entertaining book provide more than inspiration they offer a clear blueprint to everyone who wants to find her own path and move forward with passion

American Book Publishing Record, 2003 The Book Review Digest, 2004 *Grace Hopper and the Early History of Computer Programming, 1944-1960* Kurt Beyer, 2002 **Pioneering American Computer Geniuses** Mary Northrup, 2013-07-01 It is hard to imagine a world without computers The people found in this book are largely responsible for creating the high tech world in which we live today These computer geniuses include early programmers like Grace Hopper and Herman Hollerith computer chip inventors like Jack Kilby and Robert Noyce and business people like Steve Jobs and Bill Gates Readers take a look at thirteen individuals whose work has helped bring modern computers to their current level Other people profiled in this volume are John von Neumann John W Mauchly J Presper Eckert Jr An Wang Stephen Wozniak Marc Hannah and Marc Andreessen **Technofeminist Storiographies** Kristine L. Blair, 2018-12-20

Technofeminist Storiographies Women Information Technology and Cultural Representation analyzes both historical and contemporary accounts of women's lived experiences of technology from Ada Lovelace and Hedy Lamarr to women working across the tech industry today and juxtaposes them with larger cultural representations of women and technology The book explores both the relationship between gender and technology and the cultural contexts that enable and constrain that relationship questions that call for opportunities for women to share their lived experiences and to have such experiences represented across media genres Despite the rich complex stories and histories women have with technology as programmers inventors and workers media throughout history including film television games toys children's books and biographies often inadequately and inaccurately represent them Throughout the book Kristine Blair chronicles the portrayal of the relationship between women and information technology across these media genres Inevitably the societal conditions that surround technology use including portrayal through popular media impact the extent to which women and girls gain and maintain access within those cultural contexts This book calls for a more visible history of women's technological achievements in which their stories are heard for generations to come rather than be forgotten and unknown
