Material Innovation Packaging Andrew Dent:

Material Innovation: Packaging Design Andrew H Dent, Leslie Sherr, 2015-10-27 Explores new and innovative materials designed to change the way consumers experience product packaging The third in a series of ten volumes exploring the constantly evolving frontiers of design Material Innovation Packaging Design presents products whose packaging reaches new heights of innovation The range is diverse and international from plantable packaging that can be buried in dirt after consumer use later to emerge as a plant to alcohol bottles with labels that react to music and bespoke collectible jars of Marmite XO Material Innovation Packaging Design explores not only the latest advances in consumer product packaging but also how such advances could fail or flourish within the increasingly digital landscape of the twenty first century Case studies featured throughout the book profile the innovative use of materials by a particular practitioner practice or company offering specific and elegant solutions Clearly structured and illustrated throughout this book will connect reader whether student or professional to material

Manufacturing Processes for Design Professionals Rob Thompson, 2007-11-30 An encyclopaedic guide to production techniques and materials for product and industrial designers engineers and architects Today s product designers are presented with a myriad of choices when creating their work and preparing it for manufacture They have to be knowledgeable about a vast repertoire of processes ranging from what used to be known as traditional crafts to the latest technology to enable their designs to be manufactured effectively and efficiently Information on the internet about such processes is often unreliable and search engines do not usefully organize material for designers This fundamental new resource explores innovative production techniques and materials that are having an impact on the design industry worldwide Organized into four easily referenced parts Forming Cutting Joining and Finishing over seventy manufacturing processes are explained in depth with full technical descriptions analyses of the typical applications design opportunities and considerations each process offers and information on cost speed and environmental impact The accompanying step by step case studies look at a product or component being manufactured at a leading international supplier A directory of more than fifty materials includes a detailed technical profile images of typical applications and finishes and an overview of each material s design characteristics With some 1 200 color photographs and technical illustrations specially commissioned for this book this is the definitive reference for product designers 3D designers engineers and architects who need a convenient highly accessible and practical reference

Dwell , 2006-10 At Dwell we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines
