Materiality and Organizing Paul M. Leonardi, Bonnie A. Nardi, Jannis Kallinikos, 2012-11-22 This edited collection brings together leading academics in the field to explore the ways in which digital and non digital artifacts shape how groups and collectives organize It focuses on the idea of materiality and the interactions between the social and the technical in organizations at work and in technologies *Discursivity, Relationality and Materiality in the Life of the Organisation* Colleen E. Mills, Francois Cooren, 2019-10-23 The field of organisational communication has been rapidly transforming in the wake of the linguistic and discursive turns that have been sweeping across the social sciences since the mid eighties These turns have prompted organisational communication scholars to look more closely at how they think about communication and its relationship to the organisation and the process of organizing What has emerged from these reflections is a perspective that proposes communication is not merely something that happens in organisations but is the heart of organizing and therefore actually constitutes the organisation This perspective which embraces several sub threads is now commonly referred to as the CCO Communication as Constitutive of Organisation perspective This is itself evolving as scholars come to realize that organizing does not just occur at the discursive level It is inextricably coupled to the material and relational aspects of work the discourse mutually constitutes relationships between human and non human bodies that combine to create what we encounter when we participate in organisational life This book examines the way these three dimensions combine to create organisational outcomes In doing so it advances CCO and sociomateriality scholarship and contributes to new ways of thinking about strategy and practice The series of empirical studies should interest the widely interdisciplinary audience that seeks to understand work organizing and management This book was originally published as a special issue of the Communication Research and Practice journal **The SAGE Handbook of Process Organization Studies** Ann Langley, Haridimos Tsoukas, 2016-12-14 The SAGE Handbook of Process Organization Studies provides a comprehensive and timely overview of the field This volume offers a compendium of perspectives on process thinking process organizational theory process research methodology and empirical applications The emphasis is on a combination of pedagogical contributions and in depth reviews of current thinking and research in each of the selected areas combined with the development of agendas for future research The Handbook is divided into five sections Part One Process Philosophy Part Two Process Theory Part Three Process Methodology Part Four Process Applications Part Five Process Perspectives *The Routledge Companion to Qualitative Research in Organization Studies* Raza Mir, Sanjay Jain, 2017-08-29 This comprehensive book collects contributions from leading international scholars to highlight the diverse qualitative approaches available to organizational researchers each grounded in its own philosophy The editors provide a cutting edge globally oriented resource on the state of qualitative research methodologies helping readers to grasp the theories practices and future of the field Beginning with an overview of qualitative methodologies the book examines ways in which research employing these

techniques is conducted in a variety of disciplines including entrepreneurship innovation strategy information systems and organizational behavior It offers timely updates on how traditions like case studies ethnographies historical methods narrative approaches and critical research are practiced today and how emerging trends including increasing legitimacy and feminization are impacting the domain The final chapters provide templates for engaging with the future as well as essays that critically assess how qualitative inquiry has evolved within organization studies Readers will become acquainted with contemporary tools for conducting qualitative studies learning to appreciate the emerging domains of qualitative inquiry within a dynamic and complex organizational world Doctoral students and early career researchers in organizational studies especially those engaged with general management organizational behavior human resource management innovation entrepreneurship and strategy will benefit from reading this relevant and inclusive handbook

*Materiality and Space* Nathalie Mitev,Francois-Xavier de Vaujany,2013-08-09 Materiality and Space focuses on how organizations and managing are bound with the material forms and spaces through which humans act and interact at work It concentrates on organizational practices and pulls together three separate domains that are rarely looked at together sociomateriality sociology of space and social studies of technology The contributions draw on and combine several of these domains and propose analyses of spaces and materiality in a range of organizational practices such as collaborative workspaces media work urban management e learning environments managerial control mobile lives institutional routines and professional identity Theoretical insights are also developed by Pickering on the material world Lyytinen on affordance Lorino on architecture and Introna on sociomaterial assemblages in order to delve further into conceptualizing materiality in organizations

*Material Practice and Materiality: Too Long Ignored in Science Education* Catherine Milne,Kathryn Scantlebury,2019-04-11 In this book various scholars explore the material in science and science education and its role in scientific practice such as those practices that are key to the curriculum focuses of science education programs in a number of countries As a construct culture can be understood as material and social practice This definition is useful for informing researchers nuanced explorations of the nature of science and inclusive decisions about the practice of science education Sewell 1999 As fields of material social practice and worlds of meaning cultures are contradictory contested and weakly bounded The notion of culture as material social practices leads researchers to accept that material practice is as important as conceptual development social practice However in education and science education there is a tendency to ignore material practice and to focus on social practice with language as the arbiter of such social practice Often material practice such as those associated with scientific instruments and other apparatus is ignored with instruments understood as inscription devices conduits for language rather than sources of material culture in which scientists share material other than words Baird 2004 p 7 when they communicate new knowledge and realities While we do not ignore the role of language in science we agree with Barad 2003 that perhaps language has too much power and with that power there seems a concomitant loss of

interest in exploring how matter and machines instruments contribute to both ontology and epistemology in science and science education      **Formulating Research Methods for Information Systems** Chris Sauer, Leslie P. Willcocks, Mary C.

Lacity, 2016-08-05 This edited two volume collection presents the most interesting and compelling articles pertaining to the formulation of research methods used to study information systems from the 30 year publication history of the Journal of Information Technology JIT      **Handbook of Management Communication** François Cooren, Peter

Stücheli-Herlach, 2021-08-23 Management communication encompasses a wide range of practices that define modern organizations Those practices are in many respects constituted formed and contextualized by the use of language This handbook traces the theoretical modelling of these practices by contemporary research It explores their linguistic features and performance in specific situations of value creation and in various modes It is a companion for students and scholars of applied linguistics and organizational communication as well as management and strategy research      Elgar Encyclopedia of Critical Management Studies Leo McCann, Ödül Bozkurt, Rachael Finn, Edward Granter, Carolyn Hunter, Nina Kivinen, Arun Kumar, Brian Wierman, 2025-04-09 This expansive Encyclopedia provides a detailed overview of Critical Management Studies CMS This exciting and iconoclastic area of research and scholarship has had a major impact on the academic field of business and management studies opening up possibilities for exploring radical and liberatory ideas in the often conservative and technicist realm of business school education Covering many of the substantive areas of CMS such as control and gender and providing reflexive discussions and critiques this Encyclopedia is a vital contribution to this important and unique field

Organization Theories in the Making Linda Rouleau,2022-08-25 *Organization Theories in the Making* aims to demonstrate how over the last 25 years the field of organization theories OTs has been providing stimulating thoughtful and innovative perspectives. The book offers a selective immersion in organizational institutionalism convention analysis network analysis knowledge studies discourse studies and practice studies. For each of these perspectives the book explores its different research streams and zooms in the research communities that give rise to them. In addition it highlights how these perspectives all intersect with each other to form a mosaic of ideas that define today's organizations. Rouleau also invites graduate students and early career researchers to learn how recent theories view and portray the organization and more specifically to understand current research questions conceptual resources and methods. A deep knowledge of recent OTs is key when building a compelling literature review and making meaningful theoretical contributions. This book offers readers with the opportunity to develop their theory building skills and more by taking a deep dive in the complexities and controversies of OTs. The main arguments of each perspective are illustrated by specific exemplars from academic journals. Each chapter contains a synoptic table summarizing the main scholarly components within each perspective and its research substreams.

*The Agency of Organizing* Boris H. J. M. Brummans,2017-09-13 Winner of the 2018 Outstanding Edited Book Award from the Organizational Communication Division of the National Communication Association. *The Agency of Organizing* explains why the notion of agency is central to understanding what organizations are how they come into existence continue to exist or fade away and how they function. Written by leading organizational communication scholars the chapters in this edited volume present seven different theoretical perspectives on agency in the dynamics of organizing. Authors discuss how they conceptualize agency from their own perspective and how they propose to investigate agency empirically in processes of organizing by using specific methods. Through insightful case studies they demonstrate the value

of these perspectives for organizational research and practice
