Winkelmann,Bharat Bhushan,2016-06-28 This book presents the perspectives of nanotechnology educators from around the
world Experts present the pressing challenges of teaching nanoscience and engineering to students in all levels of education
postsecondary and informal environments The book was inspired by the 2014 NSF workshop for Nanoscience and
Engineering Education Since nanotechnology is a relatively new field authors present recommendations for designing
nanotechnology education programs The chapters describe methods to teach specific topics such as probe microscopy size
and scale and nanomaterial safety in classrooms around the world Other chapters describe the ways that organizations like
NNIN and the NISE Network have influenced informal nanotechnology education Information technology plays a growing
role in all types of education and several chapters are devoted to describing ways how educators can use online curricula for
teaching nanotechnology to students from preschool to graduate school The Chemical News and Journal of Physical
