The Government Class Book: Designed for the Instruction of Youth in the Principles of Constitutional Government and the Rights and Duties of Citizens Andrew White Young, 2020-09-28 The utility of the diffusion of political knowledge among a people exercising the right of self government is universally admitted The form of government established by the people of the United States though well adapted to promote the general welfare is highly complicated and

the knowledge requisite to administer it successfully can not be acquired without much study From the fact that a large portion of the American people are greatly deficient in this knowledge we may justly conclude that it will never become general until it shall have been made an object of school instruction The administration of the government of this great and rapidly increasing republic will in a few years devolve upon those who are now receiving instruction in the public schools Yet thousands annually complete their school education who have never devoted any time to the study of the principles of the government in which they are soon to take a part who become invested with political power without the preparation necessary to exercise it with discretion The schools are regarded as the nurseries of our future statesmen They share largely in the bounty of the state yet few of them render in return even the rudiments of political science to those who are to become her legislators and governors and judges Not only in the common schools generally but in a large portion of the high schools and seminaries this science is not included in the course of instruction To many of the most enlightened friends of education and of our free institutions it has long been a matter of surprise as well as regret that those to whom the educational interests of the states are more immediately intrusted should so long have treated the study in question as of minor importance or have suffered it to be excluded by studies of far less practical utility The Regents of the University of the State of New York have repeatedly noticed the neglect of this study in the academies and seminaries subject to their visitation and they mention it as a remarkable fact that in many of them preference is given to the study of the Grecian and Roman antiquities They say The constitutions laws manners and customs of ancient Greece and Rome are made subjects of regular study quarter after quarter while our own constitutional jurisprudence and the every day occurring principles of our civil jurisprudence are not admitted as a part of the academic course To persons who are to engage in any of the industrial or professional pursuits a preparatory course of training or discipline is deemed indispensable to success Yet many assume the weighty responsibilities of freemen and allow their sons to do the same with scarcely any knowledge of a freeman s duties On the intelligent exercise of political power the public prosperity and the security of our liberties mainly depend Every person therefore who is entitled to the rights of a citizen is justly held responsible for the proper performance of his political duties And any course of popular instruction which fails to impart a knowledge of our system of government must be materially defective With a view to supply this deficiency the author many years since prepared his Introduction to the Science of Government This work soon attained considerable popularity both as a class book in schools and as a book for private reading and reference for adults Not being deemed however sufficiently elementary for the children and youth in most of our common schools another work entitled First Lessons in Civil Government was written to meet the capacities of younger or less advanced scholars than those for whom the previous work was designed The favorable reception of these works by the public and the assurances of their usefulness to thousands who have studied them are to the author a source of high gratification and an ample reward for many years of arduous labor The value of these works has however been in a measure

impaired by changes in the government and laws since the time of their first publication The latter especially descending so minutely into the details of the government of the state for which alone it is intended requires frequent revisions It has occurred to the author that a new work more permanent in the character of its matter and adapted for use in all the states is demanded to supply the deficiency in the present course of education Stimulated by a desire to bear some part in laying a solid foundation for our republican institutions and encouraged by the success of his former labors in this department of education he has after a suspension of several years resumed his efforts in this enterprise in the hope that with the cooperation of teachers and those having official supervision of the schools it may be carried forward to an early consummation when the principles of government shall be made a subject of regular study in the schools and the elements of a sound political education shall be accessible to the mass of American youth And he flatters himself that the attention he has given to this subject has enabled him to prepare a work adapted in a good degree to meet the existing want of the schools
