consists of 66 chapters written by more than 90 leading educators and scientists. The contributions are informed by cutting edge theory and research and address numerous issues that are central to K 12 education. The book is arranged according to themes that are central to science education: language and scientific literacy, home and school relationships, equity, new roles for teachers and students, connecting science to other areas of the curriculum, resources for teachers and learners, and science in the news. The authors address controversial topics such as evolution and present alternative ways to think about teaching, learning, the outcomes of science education, and issues associated with high stakes testing. In addition, relationships between science and literacy are explored in terms of art and science, making sense of visuals in textbooks, reading, writing, children's literature, and uses of comics to represent science. Publisher's website: *Beyond Provincialism* Mahmoud Suleiman, Tonya Huber, 2022-08-01. International Education Inquiries is a book series dedicated to realizing the global vision of Education 2030. This vision involves ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all. The founding editors seek to provide a forum for the diverse voices of scholars and practitioners from across the globe, asking questions about transforming the vision of Education 2030 into a reality. Published chapters will reflect a variety of formats, free of methodological restrictions, involving disciplinary as well as interdisciplinary inquiries. We expect the series will be a leading forum for pioneers redefining the global discussion about the people, places, and perspectives shaping Education 2030 outcomes.

ENDORSEMENTS The educational impact of the COVID 19 pandemic has created the most serious crisis in the history of public education. Addressing this crisis effectively will require efforts aligned with an inclusive and sustainable vision of development such as articulated by the UN Education 2030 and the Sustainable Development Goals. To build back better, educators need to guide their practice by knowledge that is local as well as global in ways that help their students understand those interdependencies. *Beyond Provincialism* is an invitation to such an exploration. In this edited volume, Professors Mahmoud Suleiman and Tonya Huber and their colleagues take the reader on a journey that illuminates the impact of hunger among college students in America, how the SDGs can help turnaround high poverty schools, the role of curriculum to promote cross national collaboration, and how math and science instruction as well as study abroad can help students develop procedural and conceptual knowledge that makes visible the relevance of what they learn to the world around them, and the impact of the pandemic on teacher preparation in Palestine. The kaleidoscope of insights offered by this book will expand the global awareness and understanding of education as a global activity. A timely and useful resource for teachers and teacher educators that will contribute to advance a transformational education that helps us build back better from the devastation created by the pandemic.

Fernando M. Reimers, Harvard Graduate School of Education. Suleiman and Huber convene a dynamic group of scholars committed to transforming our schools. Using the latest theories and methodological approaches, *Beyond Provincialism* offers crucial frameworks to understand teaching and learning in a global perspective. This groundbreaking volume wholeheartedly embraces the Sustainable Development Goals.

SDGs and calls upon all of us to simultaneously dismantle systemic inequality and promote equity and social justice in pre K 20 schools across nations and their institutions It s simply a must read book especially for practitioners educators reformers researchers and policy makers who seek to internationalize education and take it beyond its cursory provincial goals Gilberto Q Conchas Wayne K and Anita Woolfolk Hoy Pennsylvania State University At a time when proponents of diversity equity and inclusion are under attack it is valuable to examine Beyond Provincialism to see how far we still need to go to reform schools and invest in teacher educator and leader preparation Grounded in solid frameworks this timely and informative book astutely provides insights from forceful practitioners scholars and researchers whose fascinating experiences and models have practical implications for promoting global multicultural competencies needed to combat racist mindsets and provincial outlooks Based on Education 2030 vision the book provides a thoughtful blueprint for integrating international and global dimensions in teacher and educator preparation Ken Magdaleno Center for Leadership Equity and Research CLEAR
