Mathematics For The Curious:

Mathematics for the Curious Peter M. Higgins, 1998-03-12 When do the hands of a clock coincide How likely is it that two children in the same class will share a birthday Should you play Roulette or the Lottery How do we calculate the volume of a doughnut Why does the android Data in Star Trek lose at poker What is Fibonacci's Rabbit Problem Many things in the world have a mathematical side to them as revealed by the puzzles and questions in this book It is written for anyone who is curious about mathematics and would like a simple and entertaining account of what it can do Peter Higgins provides clear explanations of the more mysterious features of childhood mathematics as well as novelties and connections to prove that mathematics can be enjoyable and full of surprises *Mathematics for the Curious* Peter M. Higgins, 2023 In a series of puzzles and mathematical curiosities the author introduces the reader to the entertaining side of mathematics to show what how enjoyable and surprising it can be **Math for Curious Kids** Lynn Huggins-Cooper, 2021-10-15 Discover the wonders of mathematics with this beautifully illustrated inspirational and accessible book This title is packed with clear colourful and engaging explanations of the world of maths including number theory times tables and geometry Big new concepts pop off the page thanks to vibrant diagrams and an engaging energetic prose style Kids will discover a new way of looking at the world with this wide ranging celebration of the subject of mathematics A great gift for readers aged 8-12 **ABOUT THE SERIES** The Curious Kids series draws together a collection of meticulously researched beautifully illustrated fact books that bring STEM subjects to life with a smart modern sensibility A Brief History Of Mathematics For Curious Minds Krzysztof R Apt, 2023-11-17 This book offers a short and accessible account of the history of mathematics written for the intelligent layman to gain a better appreciation of its beauty relevance and place in history It traces the development of the subject throughout the centuries starting with the so called Lebombo bone the oldest known mathematical object that was estimated to be at least 43 000 years old and ending with the 21st century The presentation is informal and no prior knowledge of mathematics is needed to enjoy the systematic chronological insights A collection of appendices is included for more technical material though still at the level of secondary school mathematics and is concerned with the historically important proofs and concepts that can be explained in a simple way A Curious History of Mathematics Joel Levy, 2016-03 Mathematics opens new doors to the amazing world of maths Telling the exciting story from a historical perspective it shows how mathematical science advanced through the discoveries of the ancient Babylonians Egyptians and Greeks the great scholars of medieval Islam and Europe and the Renaissance and the birth of the Scientific Revolution From the simplest concepts of numbers and arithmetic geometry and algebra trigonometry and calculus right through to infinity and chaos theory Mathematics introduces and explains the most important concepts in accessible non technical language Science and Math for Curious Kids Lynn Huggins-Cooper, Laura Baker, 2023-03 Uses a clear mix of pictures diagrams and instructions that help to build knowledge boost confidence and gain understanding Children will explore the history of math and physics

and understand how the world works Mathematics for the Imagination Peter Higgins,2002-09-26 Mathematics for the Imagination provides an accessible and entertaining investigation into mathematical problems in the world around us From world navigation family trees and calendars to patterns tessellations and number tricks this informative and fun new book helps you to understand the maths behind real life questions and rediscover your arithmetical mind This is a follow up to the popular Mathematics for the Curious Peter Higgins s first investigation into real life mathematical problems A highly involving book which encourages the reader to enter into the spirit of mathematical exploration Ontological Mathematics for the Curious Dr. Cody Newman Newman (author),1901 **Book of Curious and Interesting Puzzles** David Wells,2006 Of immense interest to those who enjoy recreational maths and puzzles even the most hardened puzzler will find something new Mathematical Gazette Puzzles are as old as history itself following an arc like that of technology centuries of slow progress followed by rapid expansion in the 1800s and an explosion of activity in the twentieth century This collection by bestselling author David Wells a Cambridge math scholar and teacher follows that pattern Its first part is devoted to puzzles from ancient Egypt and Babylon and subsequent sources featuring those devised by Lewis Carroll Eduard Lucas Sam Loyd and other master puzzlers of the Victorian era The second part demonstrates the tremendous variety of twentieth century puzzles More than 560 puzzles are included from the mind sharpeners of a medieval monk to the eighteenth century Ladies Diary the Hindu Bhakshali manuscript and riddles and popular rhymes None requires any mathematics beyond the most elementary algebra and geometry and few require even that Complete answers appear at the end **Supplemental Mathematics for the Curious** Bryan Dawson,2009 **Teaching Mathematics through Problem-Solving in K-12 Classrooms** Matthew Oldridge,2018-10-31 Teaching through problem solving is a commonly used phrase for mathematics educators This book shows how to use worthwhile and interesting mathematics tasks and problems to build a classroom culture based on students reasoning and thinking It develops a set of axioms about problem solving classrooms to show teachers that mathematics is playful and engaging It presents an aspirational vision for school mathematics one which all teachers can bring into being in their classrooms **Calculus for the Curious** Kent Osband,2020-05-12 Calculus offers some of the greatest problem solving methods ever discovered Anyone who understands basic algebra and geometry can learn it The main challenge is the triple D way calculus is usually taught dry dull and daunting Calculus for the Curious offers an alternative It is short only two hundred pages It is colorful and chock full of pictures It motivates all its concepts through interesting problems and offers the simplest derivation of every result It also links to dozens of activities on www.geogebra.org that offer vivid demonstrations of how calculus works Despite its brevity Calculus for the Curious covers all standard first year calculus topics and tackles a few challenges that go beyond Remarkably it does this without presuming any prior knowledge of standard precalculus Instead it introduces basic calculus concepts as useful tools for solving practical problems It then uses these tools to explain infinite series logarithms exponentials and trigonometric functions This simplifies a host of

clutter Tired of memorizing a host of unrelated math facts Tired of formulas with no visible connection to the wonders of our world Calculus for the Curious will help you restore your love of learning whether you are teaching yourself or preparing to teach others **Games and Mathematics** David G. Mathematics For The Curious Introduction

In the digital age, access to information has become easier than ever before. The ability to download Mathematics For The Curious has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Mathematics For The Curious has opened up a world of possibilities. Downloading Mathematics For The Curious provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Mathematics For The Curious has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Mathematics For The Curious. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Mathematics For The Curious. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Mathematics For The Curious, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Mathematics For The Curious has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on

a journey of continuous learning and intellectual growth.
