MATCHED

ALLY CONDIE

Matched is the first novel in the Matched Trilogy. The dystopian novel is about a tightly controlled society in which young people are 'matched' with their life partners at the age of 17.

Cassia Reyes is Matched with her friend Xander Carrow. However, when viewing the information for her Match, the picture of another young man, Ky Markham, an acquaintance outcast at her school, flashes across the screen. Did the Society make a mistake?

Comprehensive and complete Shackelford s *Surgery of the Alimentary Tract* delivers the definitive clinically oriented cutting edge guidance you need to achieve optimal outcomes managing the entire spectrum of gastrointestinal disorders Make effective use of the latest endoscopic robotic and minimally invasive procedures as well as medical therapies with unbeatable advice from a who s who of international authorities Find expert answers to any clinical question in gastrointestinal surgery from the esophagus to the colon See exactly what to look for and how to proceed from an abundance of beautifully detailed intraoperative and laparoscopic photographs Audiobooks as Artifacts David Seinberg,2024-06-19 Their ever evolving popularity notwithstanding audiobooks remain a rather undertheorized phenomenon The prevailing handful of existing studies seem to have adopted an inherently historicist approach which fails to identify and scrutinize their aesthetic importance Thus rather than regarding them as mere recorded versions of existing literary works this book explores them as the unique products of a hitherto undefined artistic genre As performance based aural artefacts the very act of listening to them is rendered an aesthetic experience in its own right By effectively embracing an interdisciplinary approach and introducing a set of aesthetic questions and philosophical conundrums ignited by a paradigmatic application of the New Institutional Theory of Art this study establishes a new aesthetic category which in turn not only classifies audiobooks as artworks to all intents and purposes but also generates the criteria and parameters for evaluating their merit Since the proof

of the proverbial pudding is purportedly in the eating in surveying a series of concrete case studies each highlighting different degrees of complexities this study mainly examines first person narratives as the most natural medium for the aesthetics of the audiobook As such the investigation herein provides one with comparative close listenings appropriately analyzing and debating their aesthetic properties Finally in exploring what this study identifies as one s informed intuition and its role in the craft of casting audiobooks this study also proposes a new understating of how aesthetic appreciation works in action
