

Sixth Grade Pacing Guide for Math Weeks 1-9

Week	Unit and Topic	Key Concepts
Ratio and Proportional Relationships Understand ratio concepts and use ratio reasoning to solve problems.		
1	Understand the concept of a ratio and use ratio language to describe a ratio relationship between two quantities.	
2	Understand the concept of a unit rate with associated units a ratio and use it to compare two ratios in the context of a ratio relationship.	
3	Use ratio and rate reasoning to solve real-world and mathematical problems, e.g., by reasoning about tables of equivalent ratios, tape diagrams, double number line diagrams, or equations.	
Number Systems Apply and extend previous understandings of multiplication and division to divide fractions by fractions.		
4	Interpret and compute quotients of fractions and solve word problems involving division of fractions by fractions, e.g., by using visual models and equations to represent the problem.	
Operations Fluently multiply multi-digit numbers and find unknown factors and multiples.		
5	Fluently multiply multi-digit numbers using the standard algorithm.	
6	Fluently add, subtract, multiply, and divide multi-digit decimals using the standard algorithm for each operation.	
7	Find the greatest common factor of two whole numbers less than or equal to 100 and the least common multiple of two whole numbers less than or equal to 10. Use the distributive property to express a sum of two whole numbers 1-100 with a variable factor as a multiple of a sum of two whole numbers with no variable factor.

Opportunities and Challenges in Teacher Recruitment and Retention

Carol R. Rinke, Lynnette Mawhinney, 2019-05-01 Opportunities and Challenges in Teacher Recruitment and Retention serves as a comprehensive resource for understanding teachers careers across the professional lifespan Grounded in the notion that teachers voices are essential for understanding teachers lives this edited volume contains chapters that privilege the voices of teachers above all Book sections look closely at the particular issues that arise when recruiting an effective committed and diverse workforce as well as the challenges that arise once teachers are immersed in the classroom setting Promising directions are also included for particularly high need areas such as early childhood teachers Black male teachers STEM teachers and urban teachers The book concludes with a call for self care in teachers lives Chapter contributions come from a variety of contexts across the United States and around the world However regardless of context or methodology these chapters point to the importance of valuing and respecting teachers lives and work Moreover they demonstrate that teacher

recruitment and retention is a complex and multifaceted issue that cannot be addressed through simplistic policy changes. Rather, attending to and appreciating the web of influences on teachers' lives and careers is the only way to support their work and the impact they have on our next generation of students.

Leveling Math Workstations in Grades K-2 Nicki Newton, 2019-03-06

In this book from bestselling author Dr. Nicki Newton, you will learn how to level math workstations to engage K-2 students in meaningful, purposeful, rigorous practice. We know students don't learn at the same pace, so how do we take into account where they are and differentiate instruction? Dr. Nicki has the answers, showing how leveled workstations are key in the formative years, how they help students operate in their zone of proximal development, and how we can use them to help students progress to higher levels of math achievement. Topics include: Understanding the framework for leveled workstations; Making sure workstations are rigorous and not just providing busy work; Building your stations in key areas such as counting numbers, place value, fluency, and word problems; Keeping students accountable and knowing where they are in their learning trajectory. Each chapter offers specific examples, activities, and tools. There is also a clear step-by-step action plan to help you implement the ideas immediately in your own classroom.
