Mathematics Through Play In The Early Years

Rhona Whiteford

Mathematics Through Play In The Early Years:

Mathematics Through Play in the Early Years Kate Tucker, 2010-03-31 Drawing directly on the classroom practice of the author Kate Tucker this work will give teachers exciting ideas for using play to teach early years mathematics

Exploring Mathematics Through Play in the Early Childhood Classroom Amy Noelle Parks, 2014-10-15 This practical book provides pre and inservice teachers with an understanding of how math can be learned through play The author helps teachers to recognize the mathematical learning that occurs during play to develop strategies for mathematizing that play and to design formal lessons that make connections between mathematics and play Common Core State Standards are addressed throughout the text to demonstrate the ways in which play is critical to standards based mathematics teaching and to help teachers become more familiar with these standards Classroom examples illustrate that unlike most formal tasks play offers children opportunities to solve nonroutine problems and to demonstrate a variety of mathematical ways of thinking such as perseverance and attention to precision This book will help put play back into the early childhood classrooms where it belongs This book makes explicit connections to play and the Common Core State Standards in Mathematics offers many examples of free play activities in which mathematics can be highlighted as well as formal lessons that are inspired by play and provides strategies for making assessments more playful helping teachers meet increasing demands for assessment data while also reducing child stress

Mathematics Through Play in the Early Years Kate Tucker, 2010-03-18 Teaching mathematics to young children in creative ways is made easy with this second edition of a wonderful book which offers the reader clear advice and lots of exciting ideas to use in any early years setting By showing how to introduce mathematical concepts through play based activities this book is in tune with current thinking about best practice in teaching and with the requirements of the Early Years Foundation Stage and current Primary National Strategy New material includes an additional chapter on creative recording a whole new chapter on ways to involve parents discussion of policy throughout the UK more on using ICT case studies covering the whole birth to eight age range Essential reading for any practitioner who wants to develop their mathematics teaching this book is equally important for all trainee teachers and early years students Kate Tucker is an early years teacher trainer and writer based in Exeter she has over 20 years of experience and has written widely on early years mathematics and Foundation Stage practice

Exploring Mathematics Through Play in the Early Childhood Classroom Amy Noelle Parks, 2015-04-28 This practical book provides pre and inservice teachers with an understanding of how math can be learned through play The author helps teachers to recognize the mathematical learning that occurs during play to develop strategies for mathematizing that play and to design formal lessons that make connections between mathematics and play Common Core State Standards are addressed throughout the text to demonstrate the ways in which play is critical to standards based mathematics teaching and to help teachers become more familiar with these standards Classroom examples illustrate that unlike most formal tasks play offers children opportunities to solve nonroutine

problems and to demonstrate a variety of mathematical ways of thinking such as perseverance and attention to precision This book will help put play back into the early childhood classroom where it belongs Book Features Makes explicit connections to play and the Common Core State Standards in Mathematics Offers many examples of free play activities in which mathematics can be highlighted as well as formal lessons that are inspired by play Provides strategies for making assessments more playful helping teachers meet increasing demands for assessment data while also reducing child stress Includes highlight boxes with recommended resources questions for reflection key research findings vocabulary lesson plan templates and more This is one of those books that I wish I had written It is smart readable relevant and authentically focused on children From the Foreword by Elizabeth Graue Sorenson Professor of Early Childhood Education University of Wisconsin In this deceptively easy to read book Amy Parks explains two things that could make a world of difference in early childhood and elementary classrooms Mathematics isn't something in a workbook it's a fascinating part of the real world And playing in school isn't a luxury it's an essential context for learning about all sorts of things including mathematics Through vignettes of children learning mathematics as they play Parks helps teachers recognize their responsibility to the moment eschewing someone else's determination of best practice in favor of what works with actual children eager to learn mathematics Rebecca New School of Education University of North Carolina at Chapel Hill

Mathematics Through Play in the Early Years Kate Tucker, 2005-07-14 Drawing directly on the classroom practice of the author this book will give teachers exciting ideas for using play to teach early years mathematics Written with particular emphasis on transition from the Foundation Stage to Key Stage 1 this book links practical ideas for teaching through play with the Early Learning Goals ELGs for the Foundation Stage and the National Numeracy Strategy NNS Chapters offer Examples of recorded work Suggestions for activities Clear links to the ELGs and the NNS Suggested questions for the teacher to use with the children Advice on planning organizing and assessing the work A list of resources

Developing Early Maths Through Story Marion Leeper, 2019-12-17 Stories and rhymes put maths into context and demonstrate concepts in ways meaningful to children They make maths more relevant fun and accessible to children sparking their imagination while developing their mathematical thinking *Developing Early Maths through Story* is the new guide to help practitioners feel more confident about teaching early mathematics Ideal for use with 3-5 years old the book will encourage young learners to exercise mathematical concepts both outdoors and indoors and show practitioners how to help their children and develop their skills creatively The book contains 14 chapters on numbers 0 to 13 each including A brief outline of a traditional story EYFS Learning objectives Resources needed Suggestions for younger children and babies Scope for outdoor activities and for using natural materials Further activities games and extension questions Suggestions for using ICT Assessment opportunities Ideal for parents and carers who want to explore or extend the learning of maths at home with their children in a very accessible and enjoyable way

Emotional Literacy in the Early Years Christine Bruce, 2010-09-21 Emotional literacy and health and wellbeing

have been placed at the heart of good practice by the Every Child Matters ECM agenda and the Early Years Foundation Stage EYFS in England and the Curriculum for Excellence in Scotland and this book provides clear guidance and lots of practical strategies for how to implement this ethos in your setting Offering an explanation of emotional literacy why it matters and how to make it happen in practice this book looks at ways to promote and develop emotional literacy with young children through Circle Time drama storytelling physical education outdoor play active learning It highlights the benefits of this ethos for all and looks at how the emotionally literate setting supports inclusion and promotes achievement Full of case studies of children aged 3 to 8 ideas for practice photographs points for reflection photocopiable materials and accompanied by a wide range of downloadable material available on the SAGE website this is an indispensable guide for the early years practitioner It is highly relevant to those looking at the transition from Early Years to Primary education as well as the social emotional and behavioural needs of young children *Strong Foundations in Early Mathematics* Lorna Earle, Sam Parkes, 2023-01-11 Developing the building blocks for mathematics This book supports early years teachers and practitioners to enable children to build Strong Foundations in Mathematics It focuses on children's learning and development in mathematics in the critical reception year It supports trainee teachers and early years students to reflect on their own mathematics learning and how this influences their teaching and subject confidence It acknowledges the uniqueness of the early years and explores the mathematical pedagogies of the EYFS Importantly the book challenges the assumption that early years mathematics is not proper maths **Teaching Mathematics 3-5** Sue Gifford, 2005-08-16 With freshness humour and originality Sue Gifford demonstrates the interactive strategies that are required to teach mathematics to young children The text is both refreshingly free from conventional wisdom and solidly grounded in recent research on learning and teaching early mathematics At the same time it is unfailing in its accuracy in uncovering children's own humour and instinct for subverting teacherly overtures Given the demonstrated lack of spontaneous mathematics in early childhood setting this assembled collage of children's own observations activities and comments is in itself a work of art Professor Carol Aubrey Institute of Education University of Warwick UK What are the most important aspects of mathematics for young children to learn How do children learn mathematics How can adults best teach mathematics to children so young The book informs practitioners students and parents about how three to five year olds learn mathematics and shows them how best to develop enjoyable mathematical learning in early years settings The book includes a summary of relevant research and considers issues relating to current practice This book Establishes principles for teaching mathematics to young children Takes into account the way children learn including social emotional physical and cognitive aspects Helps practitioners find the middle ground between not initiating enough mathematical activity and being too directive Suggests principles and frameworks for planning and assessment The book places particular emphasis on adult initiated number focused activities and playful challenging and sensitive teaching strategies to engage younger children The strategies are based on research and work with

practitioners and are illustrated by children's own responses such as making number jokes. It covers key areas of mathematics including number, shape and space, measures and problem solving with appropriate expectations and common difficulties as well as suggested activities. Essential reading for those teaching or preparing to teach mathematics to young children as well as parents interested in the mathematical education of their children.

Essentials of Literacy from 0-7 Tina Bruce, Jenny Spratt, 2011-03-17 Children flourish in their development and learning when practitioners and parents work together. Children's development and learning are further enhanced when interconnected knowledge and understanding work together. In this new edition, the authors guide readers in understanding of child development. They highlight the need for those who work with young children to become reflective practitioners. Through a focus on the introduction of nursery rhymes, finger rhymes, action songs and poetry cards, the authors provide a gentle, child-friendly way to develop literacy. 0-7 Thoroughly revised and updated, this book includes case studies and examples, discussion of the primary framework, inclusion of schools as an educational setting, age-appropriate activities, further reading suggestions at the end of each chapter. This book is useful for teachers, practitioners, teaching assistants and childminders and for anyone working with children from birth to seven years in nursery and primary schools, children's centres, foundation units and at home. Tina Bruce is an Honorary visiting professor in Early Childhood at Roehampton University. Jenny Spratt is Head of EYFS and Children's Centre Services for Peterborough Local Authority.

Understanding and Teaching Primary Mathematics Tony Cotton, 2014-04-29 How would you teach the concept of odd and even numbers to a child? What is the probability of throwing a three on a six-sided die? How could you help a child who is confusing ratio and proportion? By seamlessly combining subject knowledge and pedagogy, the second edition of *Understanding and Teaching Primary Mathematics* will not only build your own confidence in mathematics but also equip you with the curriculum understanding and pedagogical know-how to excel at teaching maths to children of any age. Written in a clear and accessible way, the book guides you through the fundamental ideas which are at the heart of teaching and learning maths, with special focus on observation and assessment of primary and early years children. Hallmark features: Links to the classroom and research are provided throughout to help you relate educational theory to your own teaching practice. Portfolio and audit tasks allow you to assess your own subject knowledge and build up a portfolio of evidence to gain Qualified Teacher Status. The accompanying extra resources offers topic-specific self-audits for you to monitor your progress, exemplar lesson plans, a range of Portfolio Tasks mapped directly to current teacher standards and web links to up-to-date online resources. New to this edition: Resource Inspiration boxes give inviting examples of different activities to do with your class to provide inspiration for your own teaching. High-quality videos with corresponding discussion have been expertly selected from Teachers TV help to widen your skills and develop your practice, offering tips, lesson ideas and classroom resources.

Looking for Learning: Maths through Play Laura England, 2021-01-21 *Looking for Learning: Maths through Play* is a full-colour practical guide linked to current policy and the EYFS framework. Laura England

creator of Little Miss Early Years uses theory case studies real life images and accessible ideas to inspire child led mathematical learning using play This book will encourage children to think about maths while playing using a range of common resources that will spark their curiosity It is full of creative suggestions for incorporating mathematical concepts counting comparison composition shape pattern and number into child led play The book contains ideas for bringing mathematical learning into children s favourite activities role play and construction art and nature sand and water play and even simple technology based activities using projectors or torches Experienced Early Years teacher Laura England creator of Little Miss Early Years also provides advice about getting children talking about maths during daily routines in Early Years settings This dip in and out book is linked to the Characteristics of Effective Learning and presents case studies real life images and practical pointers on how to use play for early mathematical concepts With tips from setting up the environment to the adult s role in this child led play Looking for Learning Maths through Play is ideal for all Early Years practitioners searching for accessible ideas for incorporating mathematical learning through play into their settings Looking for Learning books are the number one tool for identifying learning opportunities in child led play All four books are packed full of tried and tested ideas for indoor and outdoor activities helpful hints and tips and full colour photographs Written by Laura England known as Little Miss Early Years these are a must have for any nursery or pre school

Teaching Mathematics through Problem-Solving in K-12 Classrooms Matthew Oldridge, 2018-10-31 Teaching through problem solving is a commonly used phrase for mathematics educators This book shows how to use worthwhile and interesting mathematics tasks and problems to build a classroom culture based on students reasoning and thinking It develops a set of axioms about problem solving classrooms to show teachers that mathematics is playful and engaging It presents an aspirational vision for school mathematics one which all teachers can bring into being in their classrooms

Empowering Play in Primary Education Aimee Durning, Sara Baker, Paul Ramchandani, 2024-07-31 The education system does not always promote or give primacy to play within the curriculum yet research and policy alike acknowledge the importance of play for children and young people Empowering Play in Primary Education addresses this issue contributing innovative ideas about how teachers teaching assistants and children may incorporate play within the classroom while also advocating for its use as a powerful tool for ensuring successful learning outcomes Packed with imaginative ideas and practical suggestions this essential book combines theory with tried and tested practice to encourage and inspire teachers to make use of the pedagogy of play and enhance their children s learning experience Topics explored within the book include but are not limited to Playful enquiry exploring the relationship between academic research and practitioner wisdom Practices of play within different settings Inclusive practice for play in the primary school Designing a high quality low cost model for play in the Early Years Play within the wider school community e g playful leadership and pedagogy as play This is an essential read for any teacher teaching assistant headteacher senior leader or policy maker who wishes to embed more opportunities for play within their curriculum

and school The Early Years Foundation Stage Ioanna Palaiologou, Editor, 2021-02-24 This new fourth edition of The Early Years Foundation Stage is fully updated to bring it in line with key changes in the revised EYFS What is included in this new edition A brand new chapter on Reflective Practice Completely new content in fully revised chapters on Play Pedagogical Documentation Communication and Language Literacy Mathematics Understanding the World and Children's Health and Wellbeing New coverage of Baseline Assessment New and updated case studies throughout the book Taking it Outside examples New coverage of self regulation A student favourite this textbook supports your learning with case studies points for discussion reflective tasks and further reading to help you effectively apply theory in your practice across all areas of the EYFS **Teaching And Learning Early Number** Thompson, Ian, 2008-10-01 For all trainee and practising early years teachers and classroom assistants this is an accessible guide to a wide range of research evidence about the teaching and learning of early number Maths is all Around You Marianne Knaus, 2015-04-23 We encounter mathematics on a regular basis in one form or another For some people maths is scary and not something they feel confident about Even though many educators and parents attempt to provide good mathematics experiences there is still a high level of anxiety about the teaching and learning of mathematics This book presents a broad range of concepts and aims to widen the narrow view that maths for young children is just about numbers and shapes The content includes pattern early algebra counting number early operations measurement shape and spatial awareness geometry matching sorting data analysis and the introduction of chance statistics and probability This book is intended for educators and parents who would like to explore and investigate maths concepts to enrich children's experiences and extend their current thinking and learning Creative Maths Activities for Able Students Anne Price, 2006-04-18 All the ideas look easy to use and quick to prepare This is a very interesting and thought provoking book it manages to ask questions about how we teach able children but also provides some ideas and some materials to help The Association of Teachers of Mathematics Finding stimulating and challenging maths activities for able pupils in a mainstream classroom can be demanding for the busy teacher especially if maths is not your specialism Based on her experience as an Advanced Skills Teacher and LEA Consultant Anne Price explains the issues and theories surrounding the education of able pupils and links these to practical creative examples to be used in the classroom Useful resources include Photocopiable materials Advice on different teaching styles Activities and tasks for individuals groups or the whole class GATCOs Numeracy Consultants Learning Support Teachers and Student and class teachers looking for new and creative ways of teaching maths activities to able students will find this book invaluable **Shape, Space and Measures** Katharine Newall, 2004 Shape space and measures provides creative play activities for teaching new concepts and skills in mathematics Fifteen exciting themes explore the different elements of shape space and measures including the properties of 2D and 3D shapes tessellation pattern capacity length weight time size and sequence of the day week and year Activities use a range of resources to produce simple yet effective display and artwork All areas of early years learning are

covered using the indoor and outdoor environment **Art** Rhona Whiteford,2001 Art provides inspiring ideas for activities that develop children s language physical and social skills The activities are organised into the six key art concepts colour texture line shape space and form Children are encouraged to try their own mixing tearing cutting and pasting and will be impressed by the finished works of art
