public apology This is the only way forward Nations have fought wars against each other due to misunderstandings and mistakes on the part of their ancestors Because of this even decades after world war two some nations still regard other nations as their rivals or enemies Throughout the world we find border skirmishes between the armies of nations due to this rivalry carried forward from past wars As examples I can mention the regular skirmishes between India and Pakistan on the L O C The continuous skirmishes between the Israeli army and the Arabs in the Gaza Strip is another example of the result of hurt feelings between two nations This article tries to delve into the subject of hurt feelings and the tragic events caused by them If people and nations forgive each other then trillions of dollars that are spent with the intentions of inflicting harm to each other would be saved Without hurt feelings the world would become a better place with abundance of resources for the betterment of society as a whole I have written this small article without any bias towards or against people of any community and with a secular mental attitude Hence I have preferred to name the supreme deity as just God or Divinity Circumstantial evidences are overwhelming that mind in conjunction with Divinity can really work wonders by engineering the mind and making available avenues for progress

**Reading Writing Interfaces** Lori Emerson, 2014-06-01 Lori Emerson examines how interfaces from today s multitouch devices to yesterday s desktops from typewriters to Emily Dickinson s self bound fascicle volumes mediate between writer and text as well as between writer and reader Following the threads of experimental writing from the present into the past she shows how writers have long tested and transgressed technological boundaries Reading the means of production as well as the creative works they produce Emerson demonstrates that technologies are more than mere tools and that the interface is not a neutral border between writer and machine but is in fact a collaborative creative space Reading Writing Interfaces begins with digital literature s defiance of the alleged invisibility of ubiquitous computing and multitouch in the early twenty first century and then looks back at the ideology of the user friendly graphical user interface that emerged along with the Apple Macintosh computer of the 1980s She considers poetic experiments with and against the strictures of the typewriter in the 1960s and 1970s and takes a fresh look at Emily Dickinson s self printing projects as a challenge to the coherence of the book Through archival research Emerson offers examples of how literary engagements with screen based and print based technologies have transformed reading and writing She reveals the ways in which writers from Emily Dickinson to Jason Nelson and Judd Morrissey work with and against media interfaces to undermine the assumed
