Civil Rights and Liberties in the 21st Century John C. Domino, 2018-04-19 This up-to-date analysis of the Supreme Court's landmark rulings on civil rights and liberties is a discussion of the facts, legal issues, and constitutional questions surrounding those rulings. Domino's book serves as either a core text in courses on civil liberties and civil rights or as a supplementary text in courses on constitutional law and the judiciary. The book is written in the belief that the key to understanding constitutional law is not having the right answers but asking the right questions. It encourages students to be critical thinkers and provides a historical context so students can better understand competing social, legal, and political interests affecting the Supreme Court's decisions today. The text also includes numerous short excerpts from some of the more influential, eloquent, and controversial Supreme Court opinions to illustrate the handiwork of the powerful legal minds who have helped to shape our society. It reminds us that the Court is not an abstract legal mechanism but rather a group of human beings with divergent opinions.

New to the Fourth Edition: Up-to-date discussion of recent rulings from the standpoint of the Court as a Cultural Tribunal including freedom of expression including hate speech and the historic *Citizens United* case on campaign finance; freedom of religion including prayer during public meetings and the controversial *Hobby Lobby* case on corporate religious belief; social issues including reproductive rights, abortion, and the landmark *Obergefell* case on same-sex marriage; New section on obscenity and the First Amendment including discussion of Internet pornography; Expanded discussion of the use of GPS and thermal scanning technology by law enforcement and issues surrounding mobile phone privacy; The nomination and confirmation politics surrounding the death of Antonin Scalia, the failed nomination of Merrick Garland, and the confirmation of Trump appointee Neil Gorsuch; Analysis and comparison of the Roberts Court to the Rehnquist, Burger, and Warren Courts; revisiting the question of counterrevolution that set the theme for previous editions.

Saving the Security State Inderpal Grewal, 2017-10-27 In *Saving the Security State* Inderpal Grewal traces the changing relations between the US state and its citizens in an era she calls advanced neoliberalism. Marked by the decline of US geopolitical power, endless war and increasing surveillance, advanced neoliberalism militarizes everyday life while producing the exceptional citizens: primarily white Christian men who reinforce the security state as they claim responsibility for protecting the country from racialized others. Under advanced neoliberalism, Grewal shows others in the United States strive to become exceptional by participating in humanitarian projects that compensate for the security state's inability to provide for the welfare of its citizens. In her analyses of microfinance programs in the global South, security moms, the murders at a Sikh temple in Wisconsin and the post 9/11 crackdown on Muslim charities, Grewal exposes the fissures and contradictions at the heart of the US neoliberal empire and the centrality of race, gender and religion to the securitized state.

TRANSLATING Coaching Codes of Practice - Leading the way into the personal knowledge bases of everyday practitioners Yvonne Thackray, 2017-09-22 *Leading the way into the personal knowledge bases of everyday practitioners* is the third book in the *Translating Coaching Codes of Practice* series. Our latest edited volume continues to be packed with refreshingly candid and insightful experiences. Over thirty established practitioners, both new and regular, share their realised insights and patterns from their unique code of practice. They report on key events that have influenced how they practice. They may be working from within an organisation. They may be working from a portfolio of service contracts with professionals in various organisations. They are all working with an individual, directly with groups and/or teams in different locations all around the world. Their insights and patterns of practice will be valuable to anyone seeking to make sense of how their coaching approach works in their own space. Importantly, the real knowledge of how coaching works lives in the heads of practitioners.

Repowering Cities Sara Hughes, 2019-11-15 The conceptualization and execution of *Repowering Cities* are terrific and provides readers with a deep understanding of why, how and to what effect cities have mobilized to mitigate the effects of climate change. Michael J. Rich, Emory University coauthor of *Collaborative Governance for Urban Revitalization*. City governments are rapidly becoming society's problem solvers. As Sara Hughes shows, nowhere is this more evident than in New York City, Los Angeles and Toronto where the cities' governments are taking on the challenge of addressing climate change. *Repowering Cities* focuses on the specific issue of reducing urban greenhouse gas (GHG) emissions and develops a new framework for distinguishing analytically and empirically the policy agendas city governments develop for reducing GHG emissions, the governing strategies they use to implement these agendas and the direct and catalytic means by which they contribute to climate change mitigation. Hughes uses her framework to assess the successes and failures experienced in New York City, Los Angeles and Toronto as those agenda-setting cities have addressed climate change. She then identifies strategies for moving from incremental to transformative change by pinpointing governing strategies able to mobilize the

needed resources and actors build participatory institutions create capacity for climate smart governance and broaden coalitions for urban climate change policy
