History And The Testimony Of Language:

History and the Testimony of Language Christopher Ehret, 2011 This book is about history and the practical power of language to reveal historical change Christopher Ehret offers a methodological guide to applying language evidence in historical studies He demonstrates how these methods allow us not only to recover the histories of time periods and places poorly served by written documentation but also to enrich our understanding of well documented regions and eras A leading historian as well as historical linguist of Africa Ehret provides in depth examples from the language phyla of Africa arguing that his comprehensive treatment can be applied by linguistically trained historians and historical linguists working with any language and in any area of the world

disabilities *Poisoned Relations* Chelsea Berry, 2024-09-17 Illuminates the competing understandings of poison and power in the Atlantic world By the time of the opening of the Atlantic world in the fifteenth century Europeans and Atlantic Africans had developed significantly different cultural idioms for and understandings of poison Europeans considered poison a gendered weapon of the weak while Africans viewed it as an abuse by the powerful Though distinct both idioms centered on fraught power relationships When translated to the slave societies of the Americas these understandings sometimes clashed in conflicting interpretations of alleged poisoning events In *Poisoned Relations* Chelsea Berry illuminates the competing understandings of poison and power in the Atlantic World Poison was connected to central concerns of life to the well being in this world for oneself and one's relatives to the morality and use of power and to the fraught relationships that bound people together The social and relational nature of ideas about poison meant that the power struggles that emerged in poison cases while unfolding in the extreme context of slavery were not solely between enslavers and the enslaved they also involved social conflict within enslaved communities *Poisoned Relations* examines more than five hundred investigations and trials in four colonial contexts British Virginia French Martinique Portuguese Bahia and the Dutch Guianas bringing a groundbreaking application of historical linguistics to bear on the study of the African diaspora in the Americas Illuminating competing understandings of poison and power in this way Berry opens new avenues of evidence through which to navigate the violence of colonial archival silences **The History of Language** Henry Sweet, 1900 **HISTORY OF LANGUAGES**

Dr Anowar Islam , 2024-12-25 It is an admitted fact that Allah God or Bhagwan etc is the first source of languages and first teacher of mankind but which particular language s He used to give the first knowledge to the first man or entity say Adam Surya or Gabriel is not known to us However He sent down different languages on earth and also the Holy Books But the linguists traced the sources of languages perhaps without much looking into the above aspects of things and divided the languages in different groups or families like Indo European Sino Tibetan Afro Asiatic Germanic Dravidian etc which in turn came to be mixed up or have sprouted out many more branches I have thus thus pointed out in this book that languages transcended all human boundaries and brought the East to Meet the West or vice versa because Adam had first descended on earth in Sri Lanka India but his son Noah's Ark is said to have been discovered somewhere in the Middle East nearer to present day Turkey This speaks volumes about the language spoken by Adam must have also been spoken by Noah while he lived in India But after Noah's Ark reached Middle East in the Great Floods Noah along with his followers alighted from the Ark somewhere in the Middle East and settled down there itself along with his followers and their descendants must have initially spoken the same language as Adam had spoken till the Babel confusion After the Babel confusion the language which was carried from India to the Middle East reverted to the East India and other directions but in a changed form by gradually changing accent tune etc But the linguists erroneously seek to establish the languages to have originated and come from the West to the East India with the coming of the Aryans or so but not exploring the possibility of the language transcending

from the East India to the West at all earlier This book thus gives a new insight on language study It also seeks to establish Sanskrit as the first worldly language but last heavenly language while Arabic to be the last worldly language and first heavenly language among many other aspects I hope my effort will be evaluated by the esteemed readers and the linguists in its proper perspective and reach the unexplored areas of language study lying unexplored in the horizon Society, Power, and Land in Northeastern Zimbabwe, ca. 1560-1960 Admire Mseba, 2024-11-12 A little over two decades ago Zimbabwe undertook its Fast Track Land Reform Programme Critics saw it as nothing more than an assault on human and property rights for political expedience by a ruling elite that was fast losing its power In contrast those sympathetic to the land reform program saw it as fundamental to the righting of colonialism s historical wrongs Yet rural displacements at the hands of state actors or of those closely connected to them continue As in the past the continuing land conflicts are mostly understood as the result of the actions of an authoritarian state that exploits its control of land for the political and economic benefit of those who inhabit it These explanations share one thing in common each understands the country s perpetual land questions in terms of the actions or inactions of the colonial or the postcolonial state This book refocuses attention on how regimes of power rooted in kinship gender generation and status have individually and in combination informed access to land in precolonial northeastern Zimbabwe It then examines how these regimes of power interacted with colonial policies to inform the African experience in colonial Zimbabwe Further the book places land and the ability to ensure its fecundity at the center of the making and moderation of precolonial political power and how this power was impacted by the imposition of colonial rule Tracing the dynamics of land and power from precolonial times together with their entanglement with colonial policies is important for this relationship is almost always neglected by both scholars and policymakers drawn to the high drama of colonial and postcolonial politics of land This oversight has real consequences on our understandings of landed inequalities and how they are addressed When Zimbabwe s postcolonial state focused on colonially induced racialized land inequalities its land reform efforts left older forms of landed inequalities based on gender generation and ideas of belonging intact The book which details these inequalities reminds Zimbabweans and others that if the quest for equity espoused in postcolonial land reforms is to be meaningful it must be attentive to both colonially induced inequalities and those enduring disparities that predated were deepened by and outlived colonial rule At the same time Zimbabweans who now live with a postcolonial state that is increasingly centralizing power over land may well learn from past societies creative efforts to limit the authority of their leaders **History, Narrative, and Testimony in Amitav Ghosh's Fiction** Chitra Sankaran, 2012-03-12 This is the first collection of international scholarship on the fiction of Amitav Ghosh Ghosh s work is read by a wide audience and is well regarded by general readers critics and scholars throughout the world Born in India Ghosh has lived in India the United Kingdom and the United States His work spans genres from contemporary realism to historical fiction to science fiction but has consistently dealt with the dislocations violence and meetings of peoples and cultures engendered by colonialism The

essays in this volume analyze Ghosh's novels in ways that yield new insights into concepts central to postcolonial and transnational studies making important intertextual connections and foregrounding links to prevailing theoretical and speculative scholarship The work's introduction argues that irony is central to Ghosh's vision and discusses the importance of the concepts of testimony and history to Ghosh's narratives An invaluable interview with Amitav Ghosh discusses individual works and the author's overall philosophy
