better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc     *The Evolution of a Pentecostal Scholar* Martin Mittelstadt, 2024-10-14 This collection of previously published essays reveals a personal journey Two decades ago I could not have anticipated the twenty first century theological and methodological shifts in biblical studies In these essays I encourage readers to observe my evolution by way of adventures in Luke Acts In so doing I invite readers to reimagine a story not simply about the past but rich with possibilities     **Technology, Intellectual Property Law and Culture** Megan Rae Blakely, 2024-06-18 Focusing on cultural expressions that are most likely to intermingle with copyright law trademark and IP adjacent regulations this book examines contemporary issues in technology intellectual property law and culture Intangible Cultural Heritage can consist of traditional knowledge songs craftsmanship dance and other practices as well as the associated cultural artefacts and spaces a widely varied global living heritage transmitted generationally must be allowed to organically evolve often defying the process of identification so desirable in the realm of legal protections This nebulous essence is particularly ill suited to modern legal frameworks that can conflate the creative outputs that copyright is meant to protect with shared cultural practices Combining a legal perspective with historical tact the book develops a theoretical model to track the interaction amongst these issues as well as to make policy recommendations based on the existing and projected possible future outcomes Several chapters of the book will be dedicated to contemporary issues where this framework and interaction are currently developing focussing on law and technology issues with archiving and museums online platforms and copyright infringement and communities and creative production in virtual worlds The book will be of interest to students and scholars in the field of copyright law and intellectual property law
