The Secret of Progress (Classic Reprint) W. Cunningham, 2016-10-16 Excerpt from The Secret of Progress Buckle¹ regarded it as clear that militarism and high intellectual development were not compatible till recently many people were prepared to believe that warfare was alien to the interest of civilised peoples and could only occur among half civilised or backward races But this war has shown that these hopes were vain and that the last result of civilisation was not to render war impossible but to give the means of carrying it out on a vastly extended scale The increase of knowledge and of power over nature and the sense of the benefits of intercourse and inter communication have not sufficed to give us any immunity from war About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

[The History of the United States. The Classic Collection of Frederick Lewis Allen. Illustrated](#) Frederick Lewis Allen, 2025-07-18 The History of the United States brings together three seminal works by Frederick Lewis Allen offering readers a captivating journey through key moments in American history accompanied by stunning illustrations In Only Yesterday An Informal History of the 1920s Allen provides a vivid and insightful portrayal of the Roaring Twenties exploring the social cultural and political developments that shaped the decade From the rise of consumer culture to the impact of Prohibition and the stock market boom Allen captures the spirit of an era marked by prosperity and change Since Yesterday The 1930s in America continues the narrative delving into the tumultuous decade that followed the Wall Street Crash of 1929 Allen examines the Great Depression the New Deal era and the challenges faced by Americans as they grappled with economic hardship and social upheaval Through poignant anecdotes and historical analysis he paints a nuanced picture of a

nation in crisis and the resilience of its people In *The Lords of Creation The History of America's 1 Percent* Allen shifts his focus to the economic forces that shaped America in the early 20th century He explores the rise of corporate power the influence of financial magnates and the impact of their actions on society and politics With meticulous research and incisive commentary Allen sheds light on the individuals and institutions that wielded immense wealth and influence during this transformative period Accompanied by richly detailed illustrations this collection offers readers a visually stunning and intellectually stimulating exploration of American history From the exuberance of the Jazz Age to the struggles of the Great Depression and the complexities of economic power *The History of the United States* provides a comprehensive overview of key events and themes that continue to shape the nation to this day Contents Only Yesterday An Informal History of the 1920s Since Yesterday The 1930s in America *The Lords of Creation The History of America's 1 Percent* [The History of the Organ in the United States](#) Orpha Ochse, 1988-08-22 Immigration wars industrial growth the availability of electricity the popularity of orchestral music and the invention of the phonograph and of the player piano all had a part in determining the course of American organ history *The Constitution of the United States and Other Historical American Documents*, 2010-12-01 Presented here for the first time in one volume are the three founding documents of the United States and another that altered and divided the Union for a brief moment in history Declaration of Independence Adopted by the Second Continental Congress on July 4 1776 this may be the most famous angry letter in history Written by Thomas Jefferson and addressed to King George III of England it lays out the grievances of the king's 13 colonies in North America and announces that those colonies were now free of English rule By 1783 after a long bloody and expensive war that freedom became a reality Articles of Confederation Soon after independence from England was declared the Second Continental Congress instituted this first organizing document of the new United States which was ratified in March 1781 A compromise between those delegates who wanted a strong central government and those who demanded that the states be sovereign its shortcomings became obvious during the war such as the fact that the central government had no power to collect taxes or even to enforce requests for funds from the states which led to a perpetually underfunded revolution against England United States Constitution This document replaced the Articles of Confederation on June 21 1788 One of the most influential works of political philosophy and practicality ever written it is the oldest national constitution still in use today and continues to inspire freedom loving peoples around the world Its three pronged system of government balancing power among legislative judicial and executive branches was groundbreaking But it failed to address one issue slavery that would come to a head a century later Constitution of the Confederate States This 1861 document organized the new nation created by the seceding slave states While quite similar in many ways to the U S Constitution it includes more references to God and religion and more emphasis on state sovereignty offers specific clauses that seek to limit the influence of big business on politics and codifies the right to own negro slaves Together these four documents offer a firsthand perspective on the political history of

the United States **History of the United States (Serapis Classics)** John Clark Ridpath, 2017-11-12 On the day after the assassination of Mr Lincoln Andrew Johnson took the oath of office and became President of the United States He was a native of Raleigh North Carolina born in 1808 With no advantages of education he passed his boyhood in poverty and neglect In 1828 he removed to Tennessee and settled at Greenville Here through toil and hardship he rose to distinction and after holding minor offices was elected to Congress As a member of the United States Senate in 1860 61 he opposed secession with all his powers and continued to hold his seat as senator from Tennessee On the 4th of March 1862 he was appointed military governor of that State This office he held until 1864 and was then nominated for the Vice Presidency Now by the death of the President he was called to assume the responsibilities of chief magistrate On the 1st of February 1865 Congress adopted an amendment to the Constitution by which slavery was abolished and forbidden in all the States and Territories of the Union By the 18th of the following December the amendment had been ratified by the legislatures of twenty seven States and was duly proclaimed as a part of the Constitution The Emancipation Proclamation had been issued as a military measure now the doctrines and results of that instrument were recognized and incorporated in the fundamental law of the land The problem of reconstruction of the Southern States was a most serious one and the Republican party came near splitting asunder over it As early as 1863 President Lincoln had formulated a plan by which any seceding State might be restored to the Union if one tenth of its voters of 1860 should take an oath to support the Constitution and the laws and should set
