DuPlessis, 2001 In *Drafts 1 38 Toll* Rachel Blau DuPlessis has built a work which mimics memory and its losses and which plays with the textures of memory including its unexpectedness its flashes and disappearances Her recurrent motifs and materials include home homelessness and exile death and the memory of the dead political grief and passion silence speech the sayable and the ineffable *Drafts 1 38 Toll* functions as a long poem comprised of 38 pieces or drafts These poems are conceived as autonomous canto like sections that work on two procedural principles One is the random repetition of lines or phrases across poems a self questioning processual and reconceptualizing strategy that honors the term drafts A second procedural principle is the fold This is the reconsideration of a donor draft and the deployment of some aspect in the donor draft in a related draft The periodicity of this reconsideration is the number 19 hence drafts 1 19 make up the original layer while drafts 20 38 constitute the first fold on top of this material *The Long Ascent, Volume 3* Robert Sheldon, 2023-06-20 Can Eden the flood and the Tower of Babel be real events that historians have simply renamed Could Finnish and Norse Hindu Greek and Egyptian myth all be recording this same real history Did Noah's generation surpass the agricultural nuclear and biotech technology of the twenty first century How did the ancients cut the multi ton stones of the Egyptian pyramids and Incan walls or melt Scottish forts Did ancient China and Sumer know about the twin helix of DNA Were successful human breeding experiments the origin of giants while monsters like Grendel were the result of failures What disaster occurred to them that caused the forgetting of all this knowledge We know that comets captured by the sun's gravity break up into boulder streams that periodically intersect the Earth's orbit Plato and the rabbis told us that repeating cosmic disasters have erased most of our history leaving us only myth and Genesis This book weaves the modern scientific evidence from Greenland ice cores Mediterranean bathymetry NASA archaeology and human genetics with the linguistic insights of the Hebrew of Genesis 1 11 into a compelling narrative that we are only the second most advanced civilization on planet Earth For now **First Pages** Giancarlo Maiorino, 2010-11 Titology a term first coined in 1977 by literary critic Harry Levin is the field of literary studies that focuses on the significance of a title in establishing the thematic developments of the pages

that follow While the term has been used in the literary community for thirty years this book presents for the first time a thoroughly developed theoretical discussion on the significance of the title as a foundation for scholarly criticism Though Maiorino acknowledges that many titles are superficial and indexical there exists a separate and more complex class of titles that do much more than simply decorate a book's spine To prove this argument Maiorino analyzes a wide range of examples from the modern era through high modernism to postmodernism with writings spanning the globe from Spain and France to Germany and America By examining works such as *Essais* *The Waste Land* *Ulysses* and *Don Quixote* First Pages proves the power of the title to connect the reader to the thematic cultural and literary context of the writing as a whole Much like a facade to a building the title page serves as the frontispiece of literature a sign that offers perspective and demands interpretation

The Gospel trumpet. N.s., no., 1879 **Analytical Essays on Music by Women Composers: Concert Music, 1960-2000** Laurel Parsons, Brenda Ravenscroft, 2016-03-03 Over the past 30 years musicologists have produced a remarkable new body of research literature focusing on the lives and careers of women composers in their socio-historical contexts But detailed analysis and discussion of the works created by these composers are still extremely rare This is particularly true in the domain of music theory where scholarly work continues to focus almost exclusively on male composers Moreover while the number of performances broadcasts and recordings of music by women has unquestionably grown these works remain significantly underrepresented in comparison to music by male composers Addressing these deficits is not simply a matter of rectifying a scholarly gender imbalance the lack of knowledge surrounding the music of female composers means that scholars performers and the general public remain unfamiliar with a large body of exciting repertoire *Analytical Essays on Music by Women Composers Concert Music 1960-2000* is the first to appear in a

groundbreaking four volume series devoted to compositions by women across Western art music history Each chapter opens with a brief biographical sketch of the composer before presenting an in depth critical analytic exploration of a single representative composition linking analytical observations with questions of meaning and sociohistorical context Chapters are grouped thematically by analytical approach into three sections each of which places the analytical methods used in the essays that follow into the context of late twentieth century ideas and trends Featuring rich analyses and critical discussions many by leading music theorists in the field this collection brings to the fore repertoire from a range of important composers thereby enabling further exploration by scholars teachers performers and listeners *Billboard* ,2010-07-03 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Billboard** ,1979-07-14 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures* ,1985 Vols for 1969 include ACTFL annual bibliography of books and articles on pedagogy in foreign languages 1969 The Enchanted Voyager Denis Brian,1982 **The Age of Irreverence** Christopher Rea,2025-02-25 The Age of Irreverence tells the story of why China s entry into the modern age was not just traumatic but uproarious As the Qing dynasty slumped toward extinction prominent writers compiled jokes into collections they called histories of laughter In the first years of the Republic novelists essayists and illustrators alike used humorous allegories to make veiled critiques of the new government But again and again political and cultural discussion erupted into invective as critics gleefully jeered and derided rivals in public Farceurs drew followings in the popular press promoting a culture of practical joking and buffoonery Eventually these various expressions of hilarity proved so offensive to high brow writers that they launched a concerted campaign to transform the tone of public discourse hoping to displace the old forms of mirth with a new one they called youmo humor Christopher Rea argues that this period from the 1890s to the 1930s transformed how Chinese people thought and talked about what is funny Focusing on five cultural expressions of laughter jokes play mockery farce and humor he reveals the textures of comedy that were a part of everyday life during modern China s first age of irreverence This new history of laughter not only offers an unprecedented and up close look at a neglected facet of Chinese cultural modernity but also reveals its lasting legacy in the Chinese language of the comic today and its implications for our understanding of humor as a part of human culture “A” Dictionary of the English Language Robert Gordon Latham,1876
