INTRODUCTION

The following scheme of work provides an overview of the content of the 2018 International Advanced Level Information Technology and shows how the content could be taught as a guideline approach only.

It should be adapted by schools to fit their timetabling and staffing arrangements. It is based upon a two-year delivery model where all IAS content is being taught in the first year and the remaining IAL content in the second year.

The scheme of work is broken up into units and topics, so that there is greater flexibility for moving topics around to meet planning needs.

It includes:

- Recommended teaching time for topics, though of course this is adaptable according to individual teaching needs
- Classroom activities, teaching points and suggested teaching resources
- Objectives for students at the end of the topic area and Integrated Transferable Skills* that are being developed.

The number of guided learning hours for Advanced Level is 360. Teachers should be aware that the estimated teaching hours are approximate and should be used as a guideline only.

Aspects of Teaching Secondary Design and Technology Gwyneth Owen-Jackson,2003-09-02 Beginning by outlining the national curriculum for design and technology Aspects of Teaching Secondary Design and Technology goes on to look at what design and technology is in the primary school at examination level and post 16 Vocational qualifications relevant to

design and technology are also discussed There are chapters looking at the relationship between design and technology and the wider social and cultural context The development of cross curricular skills and value judgements are discussed as are sustainability and the role of the community in the teaching and learning of design and technology Together these articles comprise a sound guide to good classroom practice related to the requirements of the curriculum and rooted in the professional perspectives of experienced teachers

2000 Tips for Teachers Dr Phil Race,Nick Packard,2014-06-03 This volume brings together a wide range of advice and guidance for those teaching in primary and secondary education It covers the full range of issues facing teachers today and is designed as a dip in resource for experienced newly qualified and trainee teachers alike

Teaching and Learning Design and Technology John Eggleston,2004-12-30 Here is an increasingly wide agreement among teachers researchers inspectors advisers and policy makers that both teaching and research will benefit from being brought closer together But how can this be achieved Hard pressed practitioners cannot be expected to review a constant flow of conference papers journals and other publications even if such items were accessible and clearly understood This unique book synthesizes relevant research findings for the professional practitioner and highlights their implications for the quality of teaching and learning Whether you are a teacher looking to improve your practice through applying the latest thinking in your subject or a researcher looking for a concise review of the literature this book will prove to be a valuable acquisition

Primary Science: Teaching Theory and Practice John Sharp,Graham Peacock,Rob Johnsey,Shirley Simon,Robin Smith,Alan Cross,Diane Harris,2017-05-22 Covering all the important skills of teaching primary science the book takes a focused look at all the practical aspects of teaching

The Primary ICT & E-learning Co-ordinator's Manual James Wright,2007-05-23 This book is absolutely wonderful It will be my new Bible I have used it loads already in preparation for my ICT Mark assessment Taking on the role of ICT co ordinator can be quite a daunting task but this step by step guide breaking things down into manageable chunks will be very supportive I love the blogging idea the comments made by the characters are very realistic This is just what new co ordinators need I wish I d had this when I took over co ordination of ICT Christine Beedham Primary ICT adviser Warrington Every primary school has the daunting task of embedding ICT and e learning into their curriculum This practical manual is the first part of a two volume set that together makes up a detailed two year training programme for primary ICT and e learning co ordinators The books combine key strategies and information with a weblog discussion from a group of virtual co ordinators who share their problems fears and successes over the two year programme based on the author s wide experience of working with new co ordinators and experienced staff on training programmes and in general support Book 1 is designed specifically for co ordinators new to the role who need starting points and broad support It presents a structured training programme split over three terms guiding co ordinators through the key stages of developing and implementing ICT policy and practice including o auditing existing school systems o reviewing and revising the school policy for ICT o reviewing the ways in which ICT is used as a teaching and learning tool across the

curriculum o examining methods for the management of technical support services o establishing a clear overview of standards in ICT including a review of assessment procedures moderating work monitoring teaching and learning and creating E Portfolios The books have a companion website which will offer downloadable versions of the photocopiable sheets from the book as well as links to other sources of help and advice *Textiles Technology for Key Stage 3* Alex McArthur, Tristram Shepard, 2000-08 Accompanying the pupils full colour textbook this pack enhances classroom effectiveness and helps raise standards of teaching and learning It places emphasis on individual target setting whereby pupils achievement is easily monitored
