

Game theory often studies *interdependent decisions*—the outcome for each player depends on the actions of the other.

This chapter has focused on the concerns of realists—the interests of states, distribution of power among states, bargaining between states, and alliances of states. The chapter has treated states as unitary actors, much as one would analyze the interactions of individual people. The actions of state leaders have been treated as concerned with maximizing power through pursuing definable interests through coherent bargaining strategies. But realism is not the only way to frame the major issues of international relations. Chapter 3 reexamines these themes critically, relying less on the core principle of dominance and more on reciprocity and identity.

SUMMARY

- Realism explains international relations in terms of power.
- Realists and idealists differ in their assumptions about human nature, international order, and the potential for peace.
- Power can be conceptualized as influence or as capabilities that can create influence.
- The realist perspective is based on the assumption that states are unitary actors that act in their own self-interest.
- Realists believe that the international system is anarchic, meaning that there is no central authority that can enforce rules or laws.
- Realists believe that states are rational actors that seek to maximize their power and security.
- Realists believe that the international system is a zero-sum game, meaning that one state's gain is another state's loss.
- Realists believe that the international system is a state of constant competition and conflict.
- Realists believe that the international system is a state of constant change and flux.
- Realists believe that the international system is a state of constant uncertainty and risk.
- Realists believe that the international system is a state of constant danger and peril.
- Realists believe that the international system is a state of constant fear and anxiety.
- Realists believe that the international system is a state of constant despair and hopelessness.
- Realists believe that the international system is a state of constant despair and hopelessness.

COVID-19 Pandemic Rohan Kumar Gunaratna, Mohd Aslam, 2022-01-18 Critically analyzing the specific security threat posed by COVID 19 to global society the contributors to this book offer a comprehensive and critical examination of global challenges and responses while suggesting more balanced and nuanced approaches to handling these security impacts The COVID 19 pandemic brought about a huge challenge to health security across the globe Several countries were pushed into lockdown repeatedly to prevent the spread of infection The global economy has seen a major slowdown and disruption of supply chains around the world There have also been major implications from changes to traditional security systems as well as diverse societal change even down to aspects of daily life The chapters in this book show that progressive initiatives have expended a mixture of soft and hard response strategies that include understanding containing fighting and preventing COVID 19 They look at

major sectors including defense trade health and bioterrorism among others In doing so they highlight the best practices used around the world to minimize the threat posed by COVID 19 s impact A vital resource for security studies scholars and policymakers Security as Politics Neal Andrew W. Neal,2019-03-21 Andrew W Neal argues that while security was once an anti political exception in liberal democracies a black box of secret intelligence and military decision making at the dark heart of the state it has now become normalised in professional political life This represents a direct challenge to critical security studies debates and their core assumption that security is a kind of illiberal and undemocratic anti politics Using archival research and interviews with politicians Neal investigates security politics from the 1980s to the present day to show how its meaning and practice have changed over time In doing so he develops an original reassessment of the security politics relationship **Latin American Politics and Development** Harvey F. Kline,Christine J. Wade,2022-08-23 For over forty years Latin American Politics and Development has kept instructors and students abreast of current affairs and changes in Latin America Now in its tenth edition this authoritative yet accessible introduction has been updated throughout Organized on a country by country basis Latin American Politics and Development offers instructors maximum flexibility in organizing courses Revisions to the Tenth Edition include An updated theoretical framework to explain changes in the region including discussions of electoral systems and political actors Discussions on presidential parliamentary and municipal election cycles throughout the region from 2017 through early 2022 Coverage of the COVID 19 pandemic Examination on the regional decline in democratic norms and practices A look at the impact of the Trump administration on regional relations including the decline in democracy Updates on race Indigenous groups women Afro Latin Americans contemporary social movements religious and other non elite groups Politics in China William A. Joseph,2019 On October 1 2019 the People s Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world s poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest Politics in China provides an accessible yet authoritative introduction to how the world s most populous nation and rapidly rising

global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book s chapters provide overviews of major periods in China s modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China s geographic periphery Tibet Xinjiang Hong Kong and Taiwan
