History Matters Patriarchy And The Challenge Of Feminism:

History Matters Judith M. Bennett, 2010-11-24 Written for everyone interested in women's and gender history *History Matters* reaffirms the importance to feminist theory and activism of long term historical perspectives Judith M Bennett who has been commenting on developments in women's and gender history since the 1980s argues that the achievement of a more feminist future relies on a rich plausible and well informed knowledge of the past and she asks her readers to consider what sorts of feminist history can best advance the struggles of the twenty first century Bennett takes as her central problem the growing chasm between feminism and history Closely allied in the 1970s each has now moved away from the other Seeking to narrow this gap Bennett proposes that feminist historians turn their attention to the intellectual challenges posed by the persistence of patriarchy She posits a patriarchal equilibrium whereby despite many changes in women's experiences over past centuries women's status vis vis that of men has remained remarkably unchanged Although for example women today find employment in occupations unimaginable to medieval women medieval and modern women have both encountered the same wage gap earning on average only three fourths of the wages earned by men Bennett argues that the theoretical challenge posed by this patriarchal equilibrium will be best met by long term historical perspectives that reach back well before the modern era In chapters focused on women's work and lesbian sexuality Bennett demonstrates the contemporary relevance of the distant past to feminist theory and politics She concludes with a chapter that adds a new twist the challenges of textbooks and classrooms to viewing women's history from a distance and with feminist intent A new manifesto *History Matters* engages forthrightly with the challenges faced by feminist historians today It argues for the radical potential of a history that is focused on feminist issues aware of the distant past attentive to continuities over time and alert to the workings of patriarchal power

On Femininities in the Song of Songs and Beyond Vita Daphna Arbel,2022-01-13 Vita Daphna Arbel uses critical theories of gender to offer an alternative reading of the multilayered conceptualization of the Song of Song s feminine protagonist the most beautiful woman Arbel treats the most beautiful woman as a culturally constructed and performed representation of woman and situates this representation within the cultural discursive contexts in which the Song partly emerged She examines the gender norms and cultural ideologies it both reflects and constructs and considers the manner in which this complex representation disrupts rigid ahistorical notions of femininity and how it consequently indirectly characterizes womanhood as dynamic and diverse Finally Arbel examines the reception and impact of these ideas on later conceptualizations of the Song of Songs female protagonist with a heuristic examination of Mark Chagall s Song of Songs painting cycle Le Cantique des Cantiques These compositions selected for their diverse depictions of the Song s protagonist their impact on European art and their vast popularity and bearing in the broader cultural imagination illustrate a fascinating dialogue between the present and the past about the most beautiful woman and about multiple femininities

Authorities Dr Philip Grace, 2015-04-28 In one of his sermons the medieval preacher Bernardino of Siena listed seven fathers to whom one owed obedience God one's natural father godfather confessor benefactor a government official and any elderly man This book seeks to answer the question of why medieval Europeans saw the need for so many fathers Why was fatherhood so appealing as a metaphor Situated at the intersection of social and cultural history the study draws upon a variety of late medieval and early modern sources including witness depositions personal letters and pedagogical treatises from the city of Basel Switzerland It focuses on how people from different walks of life invoked ideas about fatherhood in the pursuit of various goals not only the ideological agendas of scholarly elites but also the more pragmatic problems of closing a business deal claiming an inheritance or choosing sides in a fistfight before turning to what these ideas reveal about fatherhood on the ground The book argues that it was precisely fatherhood's basis in lived experience that gave it a familiar shape in the several roles that fathers played including provision affection disciplinary authority and education The most potent rhetorical aspect of fatherhood however was not as a static image or shape but rather the possibility of invoking connections between one role and another The most potent connection between roles was the idea that fathers were affectionate authorities combining power over subordinates with desire for their well being Tracing the connections and contradictions of these identities this study provides a nuanced view of concepts of fatherhood on the eve of the Reformation
