The reader is presented with a framework for interpreting the pedagogy of philosophy through the development of historiography and philosophical problems in the opening chapters. The book gives in-depth coverage to the intellectual trends that preceded the formal founding of psychology, coupled with an analysis of the major classical systems of thought and the key developments in the history of basic and applied psychology. The final epilogue focuses on the major trends in psychology in the latter half of the twentieth century. Designed for anyone interested in the history of psychology, systems of psychology, or systematic psychology.
