Grounding Religion Whitney A. Bauman, Richard Bohannon, Kevin J. O'Brien, 2023-09-29 Now in its third edition Grounding Religion explores relationships between the environment and religious beliefs and practices Established scholars introduce students to the ways religion shapes and is shaped by human earth relations surveying a series of key issues and questions with particular attention to issues of environmental degradation social justice ritual practices and religious worldviews Case studies discussion questions and further readings enrich students experience This third edition features updated content including revisions of every chapter and new material on religion and the environmental humanities sexuality and queer studies class ability privilege and power environmental justice extinction biodiversity and politics An excellent text for undergraduates and graduates alike it offers an expansive overview of the academic field of religion and ecology as it has emerged in the past fifty years and continues to develop today *Reference and Subscription Books Reviews*, 1981 Management and Visualisation Gordon Fletcher, 2022-12-27 As organisations of all sizes become increasingly digitalised a core management challenge remains unresolved The ability to successfully and sustainably connect the stated vision of an organisation with its strategic plans and in turn with the reported reality of day to day operations is largely an elusive ambition despite the many stated advantages provided by contemporary technologies In this book the case is made for visual management as a method of communications planning learning and reporting that connects the organisation in a single meaningful and seamless way Throughout this book visual management is theorised around the position that all forms of management documentation are an artefact of human construction and of the organisation itself that reflect learned patterns of activity The book places visual management as a more intuitive and seamless method of coordinating learning and communicating across an organisation than more traditional formats of

presenting management documents. Consciously assembling the artefacts of an organisation in order to manage it introduces a layer of criticality that encourages reflection and consistency that is often absent from current management practice. The benefits that a visual approach brings to organisational management are an increasing necessity as machine learning, robotics and process automation remove traditional roles from organisations and necessitate new views on how individuals now fit into a data informed business. The book contributes to the academic debate regarding resource based and knowledge based views of the organisation by advocating a different more holistic viewpoint and will thus appeal to academics and researchers in this area. It would also benefit students across business disciplines whilst the practical models and tools offered will benefit directors and managers looking to implement their own visual organisational language.

Lean Out Tara Henley, 2020-03-24. INSTANT NATIONAL BESTSELLER. Travel to the land of Couldn't Be More Timely. Margaret Atwood on *Lean Out* in the West End Phoenix. What begins as one woman's critique of our culture of overwork and productivity ultimately becomes an investigation into our most urgent problems: vast inequality, loneliness, economic precarity and isolation from the natural world. Henley punctures the myths of the meritocracy in a way few writers have. This is an essential book for our time. Mandy Len Catron, author of *How to Fall in Love with Anyone*. A deeply personal and informed reflection on the modern world and why so many feel disillusioned by it. In 2016, journalist Tara Henley was at the top of her game working in Canadian media. She had traveled the world from Soweto to Bangkok and Borneo to Brooklyn, interviewing authors and community leaders, politicians and Hollywood celebrities. But when she started getting chest pains at her desk in the newsroom, none of that seemed to matter. The health crisis, not cardiac, it turned out, but anxiety forced her to step off the media treadmill and examine her life and the stressful twenty-first century world around her. Henley was not alone. North America was facing an epidemic of lifestyle-related health problems. And yet the culture was continually celebrating the elite few who thrived in the always-on work world; those who perpetually leaned in. Henley realized that if we wanted innovative solutions to the wave of burnout and stress-related illness, it was time to talk to those who had leaned out. Part memoir, part travelogue and part investigation, *Lean Out* tracks Henley's journey from the heart of the connected city to the fringe communities that surround it. From early retirement enthusiasts in urban British Columbia to moneyless men in rural Ireland, Henley uncovers a parallel track in which everyday citizens are quietly dropping out of the mainstream and reclaiming their lives from overwork. Underlying these disparate movements is a rejection of consumerism, a growing appetite for social contribution and a quest for meaningful connection in this era of extreme isolation and loneliness. As she connects the dots

between anxiety and overwork Henley confronts the biggest issues of our time **Resources in Women's Educational Equity: Special Issue** ,1979 The Advocate ,2005-01-18 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States The Advocate ,2005-01-18 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States
