Resources in Education, 2001-10 [The Mad Scientist's Guide to Composition](#) Jeffrey Andrew Weinstock, 2019-11-13 Considering the composition classroom as a mad scientist's laboratory The Mad Scientist's Guide to Composition introduces different kinds of writing as experiments Writing an essay is a task that can strike fear into a student's heart but performing an experiment licenses creativity and doesn't presume that one knows the outcome from the start The Mad Scientist's Guide covers the kinds of writing most often required on college campuses while also addressing important steps and activities frequently overlooked in composition guides such as revision and peer reviewing Actual examples of student writing are included throughout as are helpful reminders and tips to help students polish their skills Above all the Mad Scientist's Guide seeks to make writing fun

The End of Composition Studies David W Smit, 2007-03-29 Setting forth an innovative new model for what it means to be a writing teacher in the era of writing across the curriculum The End of Composition Studies urges a reconceptualization of graduate work in rhetoric and composition systematically critiques the limitations of current pedagogical practices at the postsecondary level and proposes a reorganization of all academic units David W Smit calls into question two major assumptions of the field that writing is a universal ability and that college level writing is foundational to advanced learning Instead Smit holds writing involves a wide range of knowledge and skill that cannot be learned solely in writing classes but must be acquired by immersion in various discourse communities in and out of academic settings The End of Composition Studies provides a compelling rhetoric and rationale for eliminating the field and reenvisioning the profession as truly interdisciplinary a change that is necessary in order to fulfill the needs and demands of students instructors administrators and our democratic society
