Political Sociology in a Global Era Berch Berberoglu, 2015-11-17 Political Sociology in a Global Era provides a critical analysis of the origins nature development and transformation of the state and society historically and today examining the class nature and social basis of politics and the state in different societal settings The book emphasizes the centrality of class relations in explaining political power and the role of the state in class divided societies by providing powerful theoretical and empirical analyses of themes in political sociology in an era of globalization It examines in detail the major political issues and events of our time and makes them relevant to the study of power and politics today Some of the features of this text include Introduces a global political sociology emphasizing the dynamics of power relations Provides a critical analysis of the role of politics and the state within the world historical process Describes classical and contemporary theories of politics and the state Explains the origins and development of the state discussing the nature of the state its class basis and contradictions in different types of societies Considers the dynamics of the capitalist state and traces its development in Europe and the United States from the 18th century to the present Details the role of the advanced capitalist state in the global political economy at the current advanced stage of late capitalism Discusses the social movements that have been actively struggling against the capitalist state from earlier times to the present including the Arab Spring focusing on recent developments in both advanced capitalist and less developed capitalist societies where mobilization of the masses has led to struggles against the capitalist state on a global scale Offers an original analysis of global capitalism and places it in the context of the current crisis of the global capitalist system

Contemporary Development Issues in Nigeria Olayinka Akanle, A.O. Olutayo, A.O. Omobowale, 2015-04-01 Africa today confronts and is known for daunting developmental challenges despite the abundant human and material resources and significant global development assistance A number of issues have been identified as causes of the continent's poor development performance However a number of these implicated issues have been insufficiently unaccounted for and the majority of existing analysis on them is too generic and misinformed Against this background this book uses Nigeria as an example to contribute knowledge and informed research to the wider African continent Nigeria is the most populous nation in Africa and is one of the continent's most resource endowed countries but despite this it is one of the poorest countries in the entire world While many studies have examined the country in depth its continued development complications and its paradoxical status on the world stage suggest that there is still a need to better understand the country Even though the issues of Nigeria are engaged with directly in this book the findings have implications and relevance for the rest of the continent and many other

developing countries in general As such this book will be of particular interest to all development students scholars practitioners and policy makers especially those interested in the sustainable development of Africa both now and in the future Imperialism, Crisis and Class Struggle Henry Veltmeyer,2010 This book of essays written in honour of James Petras address some of the most critical issues of our time those of imperialism crisis and class struggle These issues allow the authors to identify both the the enduring verities and contemporary face of capitalism and Petras contributions

Children's Human Rights and Public Schooling in the United States Julia Hall,2013-02-11 Promotion Text for Children s Human Rights and Public Schooling in the United States Julia Hall The United States tends to portray itself as a human rights leader However human rights concerns are confronted everyday by people in this democracy including children The purpose of this volume is to bring attention to the fact that against the backdrop of neoliberal expansion serious human rights violations are taking place among children everywhere including in the US The daily struggles among groups of school children in the US are specifically considered here such as children who are sorted by race homeless children transient children child refugees children as targeted by human traffickers and or child migrant workers As the economy continues to constrict more and more young people find themselves struggling to grow up on these razor thin margins of survival Given current economic arrangements such margins are widening The definition of children s human rights as understood in this analysis is taken directly from the UN Convention on the Rights of the Child CRC Here emphasis is placed on ways in which the CRC could be used to serve more effectively the needs of the most vulnerable populations of school age children in the US and elsewhere Public schools could be the very place where children come to understand they have rights Unfortunately many children do not get this information Instead the protections stated in the CRC and the realities of the lives of so many children are often worlds apart This volume sets out to be a part of changing this *Malaysia in the World Economy (1824-2011)* Azlan Tajuddin,2012-06-14 Does the industrial development of a country entail the democratization of its political system Malaysia in the World Economy examines this theme with regards to Malaysia in the period between 1824 and 2011 Capitalism was first introduced into Malaysia through colonialism specifically to supply Britain with much needed raw materials for its industrial development Aside from economic exploitation colonial rule had also produced a highly unequal and socially distant multicultural society whose multifaceted divisions kept the colonial rulers in supreme authority After independence Britain ensured that Malaysia became a staunch western ally by structuring in a capitalist system specifically helmed by western educated elites through what appeared to be formal democratic institutions In such a system the Malaysian ruling elites have been able to manage the country s democratic processes to its advantage as well as preempt or suppress serious internal challenges to its power often in the name of national stability As a result an increasingly unpopular National Front political coalition has remained in power in the country since 1957 Meanwhile Malaysia s marginal position in the world economy which has maintained its economic subordination to the developed countries of the west and

Japan has reproduced the internal social inequities inherited from colonial rule and channeled the largest returns of economic growths into the hands of the country's foreign investors as well as local elites associated with the ruling machinery. Over the years, however, the state has lost some of its political legitimacy in the face of widening social disparities, increased ethnic polarization, and prevalent corruption. This has been made possible by extensive exposures of these issues via new social media and communications technology. Hence, informational globalization may have begun to empower Malaysians in a new struggle for political reform, thereby reconfiguring the balance of power between the state and civil society. Unlike other past research, Malaysia in the World Economy combines both macro and micro theoretical approaches in critically analyzing the relationship between capitalist development and democratization in Malaysia within a comparative historical and world systemic context.

Class and Class Conflict in the Age of Globalization Berch Berberoglu, 2009-01-01

Dealing with a central issue of our time, *Class and Class Conflict in the Age of Globalization* provides a critical analysis of the major theories of social class and inequality and an empirical examination of the development of social classes and class conflict on a global scale, historically and today, including an understanding of the process of social change and social transformation.

The United States and West Africa Alusine Jalloh, Toyin Falola, 2008

The first volume devoted to interrogating the complex relationship both historic and contemporary between the United States and West Africa. Over the last several decades, historians have conducted extensive research into contact between the United States and West Africa during the era of the transatlantic trade. Yet we still understand relatively little about more recent relations between the two areas. This multidisciplinary volume presents the most comprehensive analysis of the U.S.-West African relationship to date, filling a significant gap in the literature by examining the social, cultural, political, and economic bonds that have in recent years drawn these two world regions into increasingly closer contact. Beginning with examinations of factors that linked the nations during European colonial rule of Africa and spanning to discussions of U.S. foreign policy with regard to West Africa from the Cold War through the end of the twentieth century and beyond, these essays constitute the first volume devoted to interrogating the complex relationship both historic and contemporary between the United States and West Africa.

Reforms Joseph Zajda, 2018-02-27 This book explores the interrelationship between ideology the state and education reforms placing it in a global context It examines some of the major education reforms and policy issues in a global culture particularly in light of recent shifts in quality and standards driven education and policy research The book critiques the neo liberal ideological imperatives of current education and policy reforms and illustrates the way the shifts in the relationship between the state and education policy affect current trends in education reforms and schooling globally With this as its focus the book s individual chapters highlight hand picked scholarly research on major discourses in the field of comparative education A compendium of the very latest thinking on the subject the book like the other volumes in the series offers a state of the art sourcebook for researchers practitioners and policymakers alike Not only do the chapters offer a timely overview of

current issues affecting comparative education and education policy research in what is now a global educational culture they also outline future directions that education and policy reforms could take By doing so they provide a comprehensive picture of the intersecting and diverse discourses of globalisation and policy driven reforms in education Individual chapters critically assess the dominant discourses and debates on education and policy reforms Using diverse comparative education paradigms from critical theory to historical comparative research they address globalisation ideology and democracy and examine both the reasons for and outcomes of education reforms and policy change As such they provide an informed critique of models of quality and standards driven education reforms that are informed by Western dominant ideologies and social values

Globalisation, Human Rights and Education Joseph Zajda,Yvonne Vissing,2025-02-28 This book analyses major discourses of human rights and education It examines critically major issues confronting human rights and education both locally and globally The various chapters analyze the challenges that different societies are faced with as they attempt to implement protect and defend democracy cultural diversity and human rights in schools The book helps readers to explore their own views and consider more broadly what may be in the best interests of a fair and just society as envisioned in human rights treaties human rights education in schools and cultural diversity

Oil Injustice Patricia Widener,2011-09-16 Oil Injustice examines the mobilization efforts of four communities with different oil histories in response to the construction of an oil pipeline Using multiple sites in Ecuador as case studies Patricia Widener examines the efforts of grassroots groups non governmental organizations activist mayors and transnational advocates that mobilized to redefine the country s oil path and to represent the voice of many local communities and organizations that sought to offer an alternative to the nation s oil dependency and to the use of its oil wealth These groups generated divergent and at times rival reactions to the pipeline though at their core the multiple campaigns developed from a shared history and awareness of a number of marginalized communities and degraded environments in areas most important to the oil process Widener shows that global environmental justice demands are bound within a capitalist political system where community activists national NGOs and their international allies are forced to seek local change rather than attempt to defeat a disabling and unequal system
