Information Luciano Floridi, 2010-02-25 We live an information soaked existence information pours into our lives through television radio books and of course the Internet Some say we suffer from infoglut But what is information The concept of information is a profound one rooted in mathematics central to whole branches of science yet with implications on every aspect of our everyday lives DNA provides the information to create us we learn through the information fed to us we relate to each other through information transfer gossip lectures reading Information is not only a mathematically powerful concept but its critical role in society raises wider ethical issues who owns information Who controls its dissemination Who has access to information Luciano Floridi a philosopher of information cuts across many subjects from a brief look at the mathematical roots of information its definition and measurement in bits to its role in genetics we are information and its social meaning and value He ends by considering the ethics of information including issues of ownership privacy and accessibility copyright and open source For those unfamiliar with its precise meaning and wide applicability as a philosophical concept information may seem a bland or mundane topic Those who have studied some science or philosophy or sociology will already be aware of its centrality and richness But for all readers whether from the humanities or sciences Floridi gives a fascinating and inspirational introduction to this most fundamental of ideas ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Information: A Very Short Introduction Luciano Floridi, 2010-02-25 We live an information soaked existence information pours into our lives through television radio books and of course the Internet Some say we suffer from infoglut But what is information The concept of information is a profound one rooted in mathematics central to whole branches of science yet with implications on every aspect of our everyday lives DNA provides the information to create us we learn through the information fed to us we relate to each other through information transfer gossip lectures reading Information is not only a mathematically powerful concept but its critical role in society raises wider ethical issues who owns information Who controls its dissemination Who has access to information Luciano Floridi a philosopher of information cuts across many subjects from a brief look at the mathematical roots of information its definition and measurement in bits to its role in genetics we are information and its social meaning and value He ends by considering the ethics of information including issues of ownership privacy and accessibility copyright and open source For those unfamiliar with its precise meaning and wide applicability as a philosophical concept information may seem a bland or

mundane topic Those who have studied some science or philosophy or sociology will already be aware of its centrality and richness But for all readers whether from the humanities or sciences Floridi gives a fascinating and inspirational introduction to this most fundamental of ideas ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Jung: A Very Short Introduction Anthony Stevens,2001-02-22 Though he was a prolific writer and an original thinker of vast erudition Jung lacked a gift for clear exposition and his ideas are less widely appreciated than they deserve In this concise introduction Anthony Stevens explains clearly the basic concepts of Jungian psychology the collective unconscious complex archetype shadow persona anima animus and the individuation of the Self He examines Jung s views on such disparate subjects as myth religion alchemy synchronicity and the psychology of gender differences and he devotes separate chapters to the stages of life Jung s theory of psychological types the interpretation of dreams the practice of Jungian analysis and to the unjust allegation that Jung was a Nazi sympathizer Finally he argues that Jung s visionary powers and profound spirituality have helped many to find an alternative set of values to the arid materialism prevailing in Western society ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Nietzsche: A Very Short Introduction Michael Tanner,2000-10-19 The philosophy of Friedrich Nietzsche 1844 1900 was almost wholly neglected during his sane life which came to an abrupt end in 1889 Since then he has been appropriated as an icon by an astonishingly diverse spectrum of people whose interpretations of his thought range from the highly irrational to the firmly analytical Thus Spoke Zarathustra introduced the superman and The Twilight of the Idols developed the Will to Power concept these term together with Sklavenmoral and Herrenmoral became confused with the rise of nationalism in Germany Idiosyncratic and aphoristic Nietzsche is always bracing and provocative and temptingly easy to dip into Michael Tanner s readable introduction to the philosopher s life and work examines the numerous ambiguities inherent in his writings It also explodes the many misconceptions fostered in the hundred years since Nietzsche wrote prophetically Do not above all confound me with what I am not ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Elements: A Very Short Introduction Philip Ball,2004-04-08 This Very Short Introduction is an exciting and non traditional approach to understanding the terminology properties and classification of chemical elements It traces the history and cultural impact of

the elements on humankind from ancient times through today Packed with anecdotes The Elements is a highly engaging and entertaining exploration of the fundamental question what is the world made from **Wittgenstein: A Very Short**

Introduction A. C. Grayling,2001-02-22 Ludwig Wittgenstein 1889 1951 was an extraordinarily original philosopher whose influence on twentieth century thinking goes well beyond philosophy itself In this book which aims to make Wittgenstein s thought accessible to the general non specialist reader A C Grayling explains the nature and impact of Wittgenstein s views He describes both his early and later philosophy the differences and connections between them and gives a fresh assessment of Wittgenstein s continuing influence on contemporary thought ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Memory: A Very Short Introduction* Jonathan K. Foster,2009 Why can we sometimes remember events from our childhood as if they happened yesterday but not what we did last week How are memories stored in the brain and how does our memory change as we age What happens when our memory goes wrong and how easy is it for others to manipulate our memories This fascinating Very Short Introduction brings together the latest research in psychology and neuroscience to address these and many other important questions about the science of memory revealing how our memory works why we couldn t live without it and even how we may learn to remember more **BOOK JACKET** *The Marquis de Sade: A Very Short Introduction* John Phillips,2005-07-28 Discussing the real Marquis de Sade from his mythical and demonic reputation John Phillips examines Sade s life and work his libertine novels his championing of atheism and his uniqueness in bringing the body and sex back into philosophy *Privacy: A Very Short Introduction* Raymond Wacks,2010-01-21 Professor Raymond Wacks is a leading international expert on privacy For more than three decades he has published numerous books and articles on this controversial subject Privacy is a fundamental value that is under attack from several quarters Electronic surveillance biometrics CCTV ID cards RFID codes online security the monitoring of employees the uses and misuses of DNA to name but a few all raise fundamental questions about our right to privacy This Very Short Introduction also analyzes the tension between free speech and privacy generated by intrusive journalism photography and gratuitous disclosures by the media of the private lives of celebrities Professor Wacks concludes this stimulating introduction by considering the future of privacy in our society ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **African History: A Very Short** **Introduction** John Parker,Richard Rathbone,2007-03-22 Intended for those interested in the African continent and the diversity of human history this work looks at Africa s past and reflects on the changing ways it has been imagined and

represented It illustrates key themes in modern thinking about Africa s history with a range of historical examples

Adolescence: A Very Short Introduction Peter K Smith,2016-05-19 Adolescence is a turbulent period to live through and a time of importance and concern to parents teachers and social workers Marking the transition from the world of childhood to adult life the adolescent faces many challenges and opportunities including forming their own identity relating to often conflicting demands from parents and peers and negotiating first romantic relationships In this Very Short Introduction Peter K Smith provides an engaging and informative overview of what we know and what we are learning about adolescence Including both a guide to the classical research that has informed our knowledge as well as the results of the modern research into the contemporary adolescent experience Smith examines a number of aspects of adolescence including the cultural and historical context the biological changes to the adolescent brain and the controversies that adolescence brings ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Design: A Very Short Introduction* John Heskett,2005 This book will transform the way you think about design by showing how integral it is to our daily lives from the spoon we use to eat our breakfast cereal to the medical equipment used to save lives John Heskett goes beyond style and taste to look at how different cultures and individuals personalise objects *The Tudors: A Very Short Introduction* John Guy,2000-08-10 First published as part of the best selling The Oxford Illustrated History of Britain John Guy s Very Short Introduction to The Tudors is the most authoritative short introduction to this age in British history It offers a compelling account of the political religious and economic changes of the country under such leading monarchs as Henry VIII and Elizabeth I The work has been substantially revised and updated for this edition In particular the reigns of Henry VII Edward VI and Philip and Mary are comprehensively reassessed **Modern India: A Very Short Introduction** Craig Jeffrey,2017-11-16 India is widely recognised as a new global powerhouse It has become one of the world s emerging powers rivalling China in terms of global influence Yet people still know relatively little about the economic social political and cultural changes unfolding in India today To what extent are people benefiting from the economic boom Does caste still exist in India How is India s culture industry responding to technological change And what of India s rapidly changing role internationally This Very Short Introduction looks at the exciting world of change in contemporary India Craig Jeffrey provides a compelling account of the recent history of the nation investigating the contradictions that are plaguing modern India and the manner in which people especially young people are actively remaking the country in the twenty first century One thing is clear India is a country that is going to become increasingly important for the world over the next decades ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new

subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Ancient Philosophy: A Very Short Introduction Julia Annas, 2000-10-12 Presents fundamental philosophical questions as posed by ancient philosophers comparing and contrasting modern differences in approach and perspective

Buddhism: A Very Short Introduction Damien Keown, 1996-10-03 This Very Short Introduction introduces the reader to the teachings of the Buddha and to the integration of Buddhism into daily life What are the distinctive features of Buddhism Who was the Buddha and what are his teachings How has Buddhist thought developed over the centuries and how can contemporary dilemmas be faced from a Buddhist perspective Words such as karma and nirvana have entered our vocabulary but what do they mean Damien Keown's book provides a lively informative response to these frequently asked questions about Buddhism

Sound: A Very Short Introduction Mike Goldsmith, 2015-12-10 Sound is integral to how we experience the world in the form of noise as well as music But what is sound What is the physical basis of pitch and harmony And how are sound waves exploited in musical instruments In this Very Short Introduction Mike Goldsmith looks at the science of sound and explores sound in different contexts covering the audible and inaudible sound underground and underwater acoustic and electric and hearing in humans and animals He also considers the problem of sound out of place noise and its reduction

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Machiavelli: A Very Short Introduction Quentin Skinner, 2019-07-25 Niccol Machiavelli taught that political leaders must be prepared to do evil so that good may come of it and his name has been a byword ever since for duplicity and immorality Is his sinister reputation deserved In answering this question Quentin Skinner traces the course of Machiavelli's adult life from his time as Second Chancellor of the Florentine republic during which he met with kings the pope and the Holy Roman Emperor to the fall of the republic in 1512 to his death in 1527 It was after the fall of the Republic that Machiavelli composed his main political works *The Prince* the *Discourses* and *The History of Florence* In this second edition of his Very Short Introduction Skinner includes new material on *The Prince* showing how Machiavelli developed his neo classical political theory through engaging in continual dialogue with the ancient Roman moralists and historians especially Cicero and Livy The aim of political leaders Machiavelli argues should be to act virtuously so far as possible but to stand ready to be not good when this course of action is dictated by necessity Exploring the pivotal concept of princely virt to be found in classical and Renaissance humanist texts Skinner brings new light to Machiavelli's philosophy of a willingness to do whatever may be necessary whether moral or otherwise to maintain a position of power

Religion in America: A Very Short Introduction Timothy Beal, 2008-07-29 It's hard to think of a single aspect of American culture past or present in which religion has not played a major role. The roles religion plays moreover become more bewilderingly complex and diverse every day. For all those who want whether out of curiosity necessity or civic duty a vivid picture and fuller understanding of the current reality of religion in America this Very Short Introduction is the go to book they need. Timothy Beal describes many aspects of religion in contemporary America that are typically ignored in other books on the subject including religion in popular culture and counter cultural groups the growing phenomenon of hybrid religious identities both individual and collective the expanding numbers of new religious movements or NRMs in America and interesting examples of outsider religion such as Paradise Gardens in Georgia and the People Love People House of God in Ohio. He also offers an engaging overview of the history of religion in America from Native American traditions to the present day. Beal sees three major forces shaping the present and future of religion in America first unprecedented religious diversity which will continue to grow in the decades to come second the information revolution and the emergence of a new network society and third the rise of consumer culture. Taken together these forces offer the potential to create a new American pluralism that would enrich society in unimaginable ways but they also threaten the great ideal of *e pluribus unum*. With visual aids that help readers navigate America's diverse religious landscape this informative thoughtful and provocative book is a must read in the emerging public conversation concerning religion in America. About the Series Combining authority with wit accessibility and style Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics from philosophy to Freud quantum theory to Islam.

Eventually, you will totally discover a further experience and attainment by spending more cash. still when? complete you believe that you require to get those all needs past having significantly cash? Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Information A Very Short Introduction Information A Very Short Introduction PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books

and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Information A Very Short Introduction Information A Very Short Introduction PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Information A Very Short Introduction Information A Very Short Introduction free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Information A Very Short Introduction Information A Very Short Introduction Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience.
