Boggs,Christine J. McPhail,2016-06-20 Anticipate manage and overcome the complex issues facing community colleges Practical Leadership in Community Colleges offers a path forward through the challenges community colleges face every day Through field observations reports news coverage and interviews with leaders and policy makers this book digs deep into the issues confronting college leaders and provides clear direction for managing through the storm With close examination of both

emerging trends and perennial problems the discussion delves into issues brought about by changing demographics federal and state mandates public demand economic cycles student unrest employee groups trustees college supporters and more to provide practical guidance toward optimal outcomes for all stakeholders Written by former presidents including a past president of the American Association of Community Colleges this book provides expert guidance on anticipating and managing the critical issues that affect the entire institution Both authors serve as consultants executive coaches and advisors to top leaders higher education institutions and leadership development programs throughout the United States Community colleges are facing increasingly complex issues from both without and within Some can be avoided others only mitigated but all must be managed and college leaders must be fully prepared or risk failing the students and the community This book provides real world guidance for current and emerging leaders and trustees seeking more effective management methods with practical insight and expert perspective Tackle the college completion challenge and performance based funding initiatives Manage through economic cycles declining support and calls for accountability Delve into the issues of privatization and employee unionization Execute strategies to align institutional goals and mission Manage organizational change and new ways of thinking that are essential in today's competitive environment Manage issues involving diversity inclusiveness and equity Prepare adequately for campus emergencies Community colleges are the heartbeat of the nation's higher education system and bear the tremendous responsibility of serving the needs of a vast and varied student body Every day may bring new issues but effective management allows institutions to rise to the challenge rather than falter under pressure Practical Leadership in Community Colleges goes beyond theory to provide the practical guidance leadership needs to more effectively lead institutions to achieve results and serve the students and the community

Teaching Innovations in Economics María del Carmen Valls Martínez, José-María Montero, 2024-10-31 This book highlights the latest technological innovations in economics education Economics as a discipline not only studies the relationship between ends and scarce means which can be used alternatively but also serves as a social science that uses historical data to predict future events a task complicated by the influence of human behavior In economics a solid theoretical foundation alone is insufficient practical application requires a deep understanding of statistics With the vast amount of information available today data processing is now performed using specialized software Consequently teaching economics demands a wide range of complex skills that have significantly evolved in recent years driven by the growing interest in educational innovation among professors and scientists further accelerated by advancements in new technologies Moreover economics education is increasingly aligned with the global concern for sustainability as emphasized in the United Nations Agenda 2030 Professors are now integrating sustainability into syllabi and teaching methodologies This book covers key topics such as Technological and innovative advancements in economics education New teaching learning theories and models in economics education The impact of digital transformation on economics education The role of artificial intelligence in economics education
