

It's Not Easy Being Green

It's not that easy being green;
Having to spend each day the color of the leaves.
When I think it could be nicer being red, or yellow or gold...
or something much more colorful like that.

It's not easy being green.
It seems you blend in with so many other ord'nary things.
And people tend to pass you over 'cause you're
not standing out like flashy sparkles in the water
or stars in the sky.

But green's the color of Spring.
And green can be cool and friendly-like.
And green can be big like an ocean, or important like a mountain,
or tall like a tree.

When green is all there is to be
It could make you wonder why, but why wonder why?
Wonder, I am green and it'll do fine, it's beautiful
And I think it's what I want to be.

When God Taps You On The Shoulder Gloria S Bush,Lillian Cosby,2005-08 Many people dismiss the world of the paranormal as impossible Others based on their own unsatisfactory experiences conclude that all claims of profound intuitiveness amount to fakery Fictionalized images of sorcerers and soothsayers consorting with unholy forces linger among us while media expos s of pseudo psychics leave little room for the voices of genuinely gifted extrasensory consultants to be heard and fairly judged When God Taps You On The Shoulder is a response to these common negative connotations It is the testimony of Lillian Cosby a woman whose supernatural gifts were evident from early childhood but who did not accept her abilities until her early thirties In service to those who seek her Lillian Cosby s biography ranges from city neighbors schoolchildren and high national government officials to the glitter of the entertainment world corporate Tokyo and beyond Beneath the brilliance of her own star status however Lillian remains grounded in Spirit When God Taps You On The Shoulder offers wisdom born of experience as well as concrete spiritual techniques to move us towards a deeper relationship with the Divine The Dictionary of Modern Proverbs ,2012-05-22 Collects more than 1 400 English language proverbs that arose in the 20th and 21st centuries organized alphabetically by key words and including information on date of origin history and meaning **Hey Kids! What happens when a lifelong gardener finally realizes he must collaborate with Mother Nature rather than work against her to achieve his dream of creating the perfect garden? In this delightful and thoughtful narrative journey of horticultural discovery, Bill Terry asks how and even why we garden and to what end. These are personal stories, thoughts and ideas about the perfect garden interspersed with humorous imagined conversations with Mother Nature herself. As he works in his West Coast garden, choosing wild roses over fancy hybrid teas and discarding man-made cultivars in favour of the charm and simplicity of peonies, hellebores and tulips, Terry learns to welcome and encourage happy accidents, greatly reducing the work and effort required to maintain order as most gardeners seek to do, and embrace a substantial measure of disorder. The perfect garden he discovers respects both Mother Nature's demands by integrating endemic plants and choosing natural species and varieties and the gardener's personality, expressing their own taste and creativity and embodying private memories. This is a witty collection of reflections that will appeal to gardeners everywhere. Soupergreen! Doug Jackson, 2021-06-21. SOUPERgreen features projects and essays that offer a long overdue critique of the current approach to green architecture and in turn demonstrate a more appropriate way for architects to address the challenges posed by the environmental crisis. In sharp contrast to contemporary examples of green or sustainable architecture which primarily rely upon the invisible agency of unremarkable technologies and materials to reduce resource consumption but which do so without producing a necessary shift in the public's perception of the environment or behavior towards it, SOUPERgreen demonstrates how green technology can not only perform from a measurable standpoint but can also produce engaging experiences that profoundly alter, enhance and transform the public's understanding of the environment. By leveraging the inherently expressive nature of technology in order to dramatize the constantly negotiated relationship between humanity and the natural world, the souped-up green architecture featured in SOUPERgreen transforms greenness from a mere measurement of environmental performance into an actively engaged and highly conscious lived reality, resulting in a new way of experiencing and understanding the environment that is inherently more ecological.
