Love First Colette Potts, 2018-08-17 Struggling to offer a children s program that resonates with young families Finding it difficult to recruit teachers and volunteers for your children s program Want a children s ministry that is grounded in Christ s foundational teachings and relevant to the experiences of children today This must have guide to rethinking your children s ministry is informed and intelligent with the lighthearted humor so helpful to working with children Through storytelling testimonials and research based creativity you ll be inspired and energized to use your church s gifts your children s interests and your families needs to develop a children s ministry that fits your church and the people in it An appendix includes sample lesson plans suggested Bible stories and book and sermons Colette Potts offers a successful model for a congregation to turn around their children s ministry program to engage the whole congregation in worship learning and service while partnering with parents for bridging the formation gap between Sunday morning at church and the rest of the week at home and beyond Color Medical Image Analysis M. Emre Celebi, Gerald Schaefer, 2012-09-16 Since the early 20th century medical imaging has been dominated by monochrome imaging modalities such as x ray computed tomography ultrasound and magnetic resonance imaging As a result color information has been overlooked in medical image analysis applications Recently various medical imaging modalities that involve color information have been introduced These include cervicography dermoscopy fundus photography gastrointestinal endoscopy microscopy and wound photography However in comparison to monochrome images the analysis of color images is a relatively unexplored area The multivariate nature of color image data presents new challenges for researchers and practitioners as the numerous methods developed for monochrome images are often not directly applicable to multichannel images The goal of this volume is to summarize the state of the art in the utilization of color information in medical image analysis Color Technology for Electronic Imaging Devices Henry R.
