Marking from Classical to Late Latin Jana Mikulová, 2022-09-19 If you read a work by Cicero or Seneca and then open The Pilgrimage of Egeria Augustine or Gregory of Tours you will soon notice that Late Latin authors quote authorities differently They provide a perfect example of synthesising two potentially conflicting traditions classical and biblical This book examines how the system of direct discourse marking developed over the centuries It focuses on selecting marking means presents the dynamics of change and suggests factors that might have been at play The author guides the reader on the path that goes from the Classical prevalence of inquit to the Late innovative mix of marking words including the very classical inquit an increased use of dico the newly recruited ait and dicens influenced by biblical translations The book suggests that Late authors tried to make reading and understanding easier by putting quotative words before quotations and increasing the use of redundant combinations e g he answered saying Birds in Roman Life and Myth Ashleigh Green, 2023-03-03 This book explores the place of birds in Roman myth and everyday life focusing primarily on the transitional period of 100 BCE to 100 CE within the Italian peninsula A diverse range of topics is considered in order to build a broad overview of the subject Beginning with an appraisal of omens augury and auspices including the sacred chickens consulted by generals before battle it goes on to examine how Romans farmed birds hunted them and kept them as pets It demonstrates how the ownership and consumption of birds were used to communicate status and prestige and how bird consumption mirrored wider economic and social trends Each topic adopts an interdisciplinary approach considering literary evidence alongside art material culture zooarchaeology and modern ornithological knowledge The inclusion of zooarchaeology adds another dimension to the work and highlights the value of using animals and faunal remains to interpret the past Studying the Roman view of birds offers great insight into how they conceived of their relationship with the gods and how they stratified and organised their society This book is a valuable resource for bird lovers and researchers alike particularly those studying animals in the ancient world *The Greek Worship of the Gods* Friedrich Nietzsche, 2025-08-04 Nietzsche's lectures notes entitled On the Greek Worship of the Gods contain a detailed treatment of Greek religious life including classical studies architectural descriptions and theological discussions In addition the notes form the basis of Nietzsche's later published writings on the Greeks including many direct quotes from the notes The volume includes a translation an extensive introduction and two critical chapters from philosophical and classical studies perspectives The book provides new and important information on Nietzsche's thought for specialist and non specialist readers

LaFosse,2023-12-05 We all age But how we understand age and aging depends on cultural context The early followers of Jesus experienced growing up and growing old in a world where more than a third of children never reached adulthood married women could expect to become widows and above all elders were to be honoured In the ancient Mediterranean expectations associated with one s age could be a source of social power as well as a source of tension within families and communities and between generations Honouring Age positions age as an essential aspect of communal identity and familial roles in the early Christian experience by examining one of the most contentious and perplexing texts in the New Testament the first letter to Timothy First Timothy reflects a one sided conversation between an older Paul and a younger Timothy in which the author hopes to influence both the old and young in fulfilling their traditional roles in the household of God It was a time of tumult and relations were fraught with potential consequences for the reputation of the nascent Christian community some children were neglecting their aging parents which was culturally unacceptable behaviour older women who should have been encouraging young widows to remarry were discouraging them exposing them to ridicule young men who should have been respectful to their elders were shamefully turning on them In recognizing the responsibilities of young and old to each other and the reputational damage they otherwise risked this study demonstrates that age is integral to understanding the complexities of 1 Timothy Drawing on modern ethnographies corroborated by ancient evidence to interpret social aspects of 1 Timothy Honouring Age shows convincingly that in emerging Christian communities in the ancient Mediterranean world age mattered
