the Monster Mark A. McCutcheon,2018-04-21 Technology a word that emerged historically first to denote the study of any art or technique has come in modernity to describe advanced machines industrial systems and media McCutcheon argues that it is Mary Shelley s 1818 novel Frankenstein that effectively reinvented the meaning of the word for modern English It was then Marshall McLuhan s media theory and its adaptations in Canadian popular culture that popularized even globalized a Frankensteinian sense of technology The Medium Is the Monster shows how we cannot talk about technology that human made monstrosity today without conjuring Frankenstein thanks in large part to its Canadian adaptations by pop culture icons such as David Cronenberg William Gibson Margaret Atwood and Deadmau5 In the unexpected connections illustrated by The Medium Is the Monster McCutcheon brings a fresh approach to studying adaptations popular culture and technology

in size from the Ebola virus to the great white shark up to the Tyrannosaurus Rex extinct fortunately for us and that's just one planet. What even more deadly life forms might the billions of planets in our galaxy have spawned? And suppose the things are intelligent and capable of crossing space and coming here? Considering that very possibility are the masters of science fiction starring in this book including Robert Silverberg, David Drake, Sarah A. Hoyt, James H. E.T. might have been happy eating Reese's Pieces, but other visitors from the void might have less dainty appetites. And there are probably worse things than merely being eaten. At the publisher's request, this title is sold without DRM (Digital Rights Management). Praise for previous anthologies edited by Hank Davis: *In Space No One Can Hear You Scream*, the 13 tales in this collection blend SF with horror to demonstrate the resiliency of both genres; offers strong tales by the genre's best storytellers; *Library Journal* first rate science fiction demonstrating how short stories can still entertain; *Galveston County Daily News*; *A Cosmic Christmas 2 You*. This creative and sprightly Christmas science fiction anthology spins in some surprising directions. A satisfying read for cold winter evenings, a great stocking stuffer for SF fans. *Publishers Weekly*. *As Time Goes By*: *As Time Goes By* does an excellent job of exploring not only romance through time travel relationships enabled or imperiled by voyaging through time, but the intrinsic romance of time travel itself. The range of styles and approaches is as wide as the authors' sensibilities and periods might suggest, full of entertaining and poignant stories. *Alvaro Zinos Amaro*, *IntergalacticMedicineShow.com*. *Deleuze and the Schizoanalysis of Literature*, Ian Buchanan, Tim Matts, Aidan Tynan, 2015-02-26. In 1972 the French theorists Deleuze and Guattari unleashed their collaborative project which they termed schizoanalysis upon the world. Today few disciplines in the humanities and social sciences have been left untouched by its influence. Through a series of groundbreaking applications of Deleuze and Guattari's work to a diverse range of literary contexts from Shakespeare to science fiction, this collection demonstrates how schizoanalysis has transformed and is transforming literary scholarship. Intended for upper level undergraduates, postgraduates, and scholars with an interest in continental philosophy, literary theory, and critical and cultural theory, *Deleuze and the Schizoanalysis of Literature* is a cutting edge volume featuring some of the most original voices in the field, setting the agenda for future research. *Behemoth: Seppuku*, Peter Watts, 2014-08-26. In a world ravaged by the apocalyptic microbe ehemoth, amphibious cyborg Lenie Clarke must confront the consequences of her past and the enemies that hunt her in the crushing depths of the ocean. Lenie Clarke, amphibious cyborg. Meltdown. Madonna, agent of the Apocalypse, has grown sick to death of her own cowardice. For five years since the events recounted in *Maelstrom*, she and her bionic brethren have hidden in the mountains of the deep Atlantic. Atlantis, the facility they commandeered, was more than a secret station on the ocean floor. It was an exit strategy for the corporate elite, a place where the world's Movers and Shakers had hidden from the doomsday microbe ehemoth and from the hordes of the moved and the shaken left behind. For five years, rifters and corpses have lived

in a state of uneasy truce united by fear of the outside world But now that world closes in An unknown enemy hunts them through the crushing darkness of the Mid Atlantic Ridge ehemoth twisted mutated more virulent than ever has found them already The fragile armistice between the rifters and their one time masters has exploded into all out war and not even the legendary Lenie Clarke can take back the body count Billions have died since she loosed ehemoth upon the world Billions more are bound to The whole biosphere came apart at the seams while Lenie Clarke hid at the bottom of the sea and did nothing But now there is no place left to hide The consequences of past acts reach inexorably to the very floor of the world and Lenie Clarke must return to confront the mess she made Redemption doesn t come easy with the blood of a world on your hands But even after five years in pitch black purgatory Lenie Clarke is still Lenie Clarke There will be consequences for anyone who gets in her way and worse ones perhaps if she succeeds Behemoth Seppuku concludes the final act begun in ehemoth Max of Peter Watts s chilling and powerful Rifters series At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied **Starfish** Peter Watts,1999-07-09 Physically modified convicts are used in the Pacific for the exploitation of ocean floor resources without diving equipment But in the process they have become carriers of a microorganism that could wipe out humanity if they return to the surface **Pandemic Protagonists**
