US HISTORY: THE CIVIL WAR ERA: A NATION DIVIDED AND REBORN (1844-1877)

Summarize the paragraph in one sentence.

QUESTIONS

The Effect of War, Slavery, and National Identity
(1844-1877)

The mid-19th century in the United States was dominated by the burning question of the Civil War, a conflict that would determine the nation's very soul. From 1844 to 1877, Americans witnessed the country's greatest regional tensions, a brutal war, and the process of reconstruction.

The admission of the Mississippi Territory as a state in 1848, the first of many, was a significant step in the process of westward expansion. The territory's vast natural resources, including cotton and sugar, attracted settlers and investors, leading to the development of a new economy.

The Supreme Court, which had long been a source of controversy, issued its landmark decision in 1857, ruling that the federal government could not regulate slavery in the territories. This decision, known as Dred Scott v. Sandford, intensified the debate over slavery and led to the secession of Southern states. The Civil War, which began in 1861, was a direct result of this decision and the growing divide between the North and South.

Summarize the paragraph in one or two short paragraphs.

Was the American Revolution a Mistake? Burton Weltman,2013-08-27 Why was George Washington dismayed by the outcome of the American Revolution Would slavery still exist if the South had not seceded from the Union in 1861 Might socialists rule America today if Teddy Roosevelt had not run for President and lost in 1912 History is full of contingencies People confront problems and debate options for solving them Then they make a choice and face the consequences of their choice Often they wonder if a different choice might have been better Was the American Revolution a mistake Was racial segregation inevitable Was the Cold War necessary Americans have repeatedly asked these sorts of questions as they examined the consequences of their choices This is a book about revisiting crucial choices people made in history and

examining the consequences of those choices for them and for us It demonstrates a method of teaching history that recreates events as people experienced them and asks important questions that troubled them but that rarely appear in conventional textbooks Unlike conventional methods that often reduce history to names dates and factoids for students to memorize it is a method that brings past debates to life the losers as well as the winners points of view and makes the subject exciting In studying history as choice students examine the problems people faced their options for solving them their decision making processes and the choices they made Then students evaluate the consequences of those choices both for people in the past and us today They explore what might have happened if different choices had been made Finally students relate the consequences of those past choices to problems we face today and the choices we need to make History as choice is a practical and practicable method It has been designed to satisfy the curriculum goals of the National Council for the Social Studies and the book explains how it can be used to satisfy any state or local curriculum standards The book also identifies and illustrates resources that can be used with this method from data bases to popular music and explains how teachers can gradually integrate it into their courses In the first part of the book the method of history as choice is explained using the question of whether the American Revolution was a mistake as a case in point The second part of the book explores thirteen other questions about significant issues and events in American history as additional examples of how one might teach history as choice
