Chinese Nationalism in Perspective C. X. George Wei, Xiaoyuan Liu, 2001-08-30
Wei and Liu argue that Chinese nationalism is a multifaceted concept. At different historical moments and under certain circumstances, it had different meanings and interacted with other competing motives and interests. The authors of this timely volume, all of whom are of Chinese origin and bilingual in education, have produced a balanced and non-culture-bound work of scholarship. It contains diverse provocative and in-depth analysis of both historical and recent case studies that can shed light on the contemporary incarnation of Chinese nationalism. This interdisciplinary anthology looks at variants of Chinese nationalism upheld and contended by social groups, classes, and power holders from the past to the present. The authors argue that nationalism can be supported by both patriotic and group or party-oriented interest calculations. Forms of Chinese nationalism can result from situational as well as ideological conditions.

Cultural Marketplace Ana Cristina Mendes, 2016-03-23 Taking up the roles that Salman Rushdie himself has assumed as a cultural broker gatekeeper and mediator in various spheres of public production Ana Cristina Mendes situates his work in terms of the contemporary production circulation and consumption of postcolonial texts within the workings of the cultural industries Mendes pays particular attention to Rushdie as a public performer across various creative platforms not only as a novelist and short story writer but also as a public intellectual reviewer and film critic Mendes argues that how a postcolonial author becomes personally and professionally enmeshed in the dealings of the cultural industries is of particular relevance at a time when the market is strictly regulated by a few multinational corporations She contends that marginality should not be construed exclusively as a basis for understanding Rushdie's work since a critical grounding in marginality will predictably involve a reproduction of the traditional postcolonial binaries of oppressor oppressed and colonizer colonized that the writer subverts Rather she seeks to expand existing interpretations of Rushdie's work itineraries and frameworks in order to take into account the actual conditions of postcolonial cultural production and circulation within a marketplace that is global in both orientation and effects
