Performative Contradiction and the Romanian Revolution Jolan

Bogdan, 2017-03-29 The Romanian Revolution of 1989 ended 42 years of Communist rule. It was the bloodiest revolution in a Warsaw Pact country, culminating in the overthrow and execution of Nicolae Ceaușescu. However, there was no major democratic reform, and power remained in the hands of key figures from the old regime. This has led many theorists to question the authenticity of the entire revolution. *Performative Contradiction and the Romanian Revolution* focuses on the circumstances which led to these accusations. It argues that the notion of an authentic revolution as a conceptual paradigm is neither a sufficient nor appropriate nor useful tool for an analysis of the events in Romania. Engaging with the work of theorists including Stiegler, Agamben, Baudrillard, Badiou, Spinoza, and Derrida, it argues that performative contradiction is a more useful theoretical model for exploring this event. Applying the concept to specific cases within the revolution, the book demonstrates the power of performative contradiction as an analytic tool.

Spinoza's Challenge to Jewish Thought

Daniel B. Schwartz, 2019-03-15 Arguably no historical thinker has had as varied and fractious a reception within modern Judaism as Baruch Benedict Spinoza. 1632–77, the seventeenth-century philosopher, pioneering biblical critic, and Jewish heretic from Amsterdam. Revered in many circles as the patron saint of secular Jewishness, he has also been branded as the worst traitor to the Jewish people in modern times. Jewish philosophy has cast Spinoza as marking a turning point between the old and the new, as a radicalizer of the medieval tradition and table setter for the modern. He has served as a perennial landmark and point of reference in the construction of modern Jewish identity. This volume brings together excerpts from central works in the Jewish response to Spinoza. True to the diversity of Spinoza's Jewish reception, it features a mix of genres from philosophical criticism to historical fiction, from tributes to diary entries, providing the reader with a sense of the overall historical development of Spinoza's posthumous legacy.

Architecture in the Age of Pornography Nadir Lahiji, 2021-09-30 Architecture and its pedagogy in the academy is dominated by the technology of image production that veils the naked power behind its operation. It conforms to the principles of cultural logic of the society of the spectacle, consistent with neoliberal capitalism. The problem with this dominant pedagogy is that it violates the fundamental ethical imperative: putting architecture in direct contradiction with the common good. In addition, it has let architecture enter the brothel of pornographic capitalism, which turns every object into an object of obscene gratification of the senses. In this book, Nadir Lahiji adopts Alain Badiou's thesis from *The Pornographic Age* to demonstrate that contemporary architecture is in absolute complicity with the pornographic present. The traits that Badiou identifies in this age are manifestly visible in architectural surfaces, which are subordinated to the same regime of images. Similarly to Badiou's political indictments of the society which has given rise to the pornographic present, the book condemns the architecture that has lent its service to the same society with a license to consummate its transgression to better cater to the imperative of the regime of images. Transposing the

conceptual categories in Badiou's analysis to the critique of architecture's pornographic turn in contemporary society the book constructs a conceptual framework by which to demonstrate the specific manifestations of pornography in building The book is aimed at architecture students at higher graduate and post graduate levels **Essay on Religious Philosophy** M. Emile Saisset, 2022-04-29 Reprint of the original first published in 1863 **Bruno, or On the Natural and Divine Principle of Things** Friedrich Wilhelm Joseph von Schelling, 1984-01-01 Makes Schelling's dialogue Bruno readily accessible to the English language reader with valuable commentary on the work itself which details Schelling's account of his differences from Fichte **Systematic Theology, etc** Ralph WARDLAW (D.D.), 1865 Early Modern German Philosophy (1690-1750) Corey W. Dyck, 2019-12-12 Early Modern German Philosophy 1690 1750 makes some of the key texts of early German thought available in English in most cases for the first time The translations range from texts by the most important figures of the period including Christian Thomasius Christian Wolff Christian August Crusius and Georg Friedrich Meier as well as texts by consequential but less familiar thinkers such as Dorothea Christiane Erxleben Theodor Ludwig Lau Friedrich Wilhelm Stosch and Joachim Lange The topics covered range across a number of areas of theoretical philosophy including metaphysics the immortality of the soul materialism and its refutation the pre-established harmony epistemology the principle of sufficient reason the limits of reason with respect to matters of faith and logic the role of prejudices in cognition and the doctrine of truth These texts are intended to showcase German philosophy in the early Modern period as a far richer tradition than it is typically given credit for and indeed as much more than either a footnote to Leibniz or merely a step on the way to Kant This collection is a valuable resource for students and scholars interested in the early modern German tradition and the often neglected works that enlightened it *Josiah Royce* Josiah Royce, 1988 A very significant aspect of Josiah Royce's philosophical achievement is carefully and fully treated with special emphasis on his contribution as a philosopher of spirituality **The ^AOxford Handbook of Spinoza** Michael Della Rocca, 2017-08-31 Until recently Baruch Spinoza's standing in Anglophone studies of philosophy has only seemed to confirm Heinrich Jacobi's assessment of him as a dead dog However an exuberant outburst of scholarship on Spinoza has of late come to dominate work on early modern philosophy While the 26 essays in this volume by many of the world's leading Spinoza specialists grapple directly with Spinoza's most important arguments these essays also seek to identify and explain Spinoza's debts to previous philosophy his influence on later philosophers and his significance for contemporary philosophy and for humanity

Theology and the Soul of the Liberal State Leonard V. Kaplan, Charles L. Cohen, 2010-01-01 Rising calls in both the United States and abroad for theologizing national agendas have renewed examinations about whether liberal states can accommodate such programs without either endangering citizens' rights or trivializing religious concerns Conventional wisdom suggests that theology is necessarily unfriendly to the liberal state but neither philosophical analysis nor empirical argument has convincingly established that conclusion Examining the problem from a variety of perspectives including law

philosophy history political theory and religious studies the essays in *Theology and the Soul of the Liberal State* suggest the possibilities for and limits on what theological reflection might contribute to liberal polities across the globe *Theology and the Soul of the Liberal State* develops these issues under five headings Part One explores The Nature of Religious Argument as it can inflect discussions of public policy political theory jurisprudence and education Part Two Theologies of the Marketplace notes that theology can by turns be highly critical neutral or even inordinately supportive of market operations Part Three European Perspectives reviews and develops arguments from Abraham Kuyper Karl Barth and French post modernists concerning how one might integrate theological discourse into the public sphere Part Four offers Israel Pakistan and Tibet as Asian Perspectives on how theology may comport with liberalism in recently created states or in the last case a diasporic government in exile where powerful religious constituencies make secular civil action extremely problematic Finally Part V Religion and Terror probes the vexed relationship between conceptions of divine and human justice where the imperatives of theology and state confront each other most nakedly Collectively *Theology and the Soul of the Liberal State* suggests that the liberal state cannot keep theology out of public discourse and may even benefit from its intervention but that their intersection if potentially beneficial is always fraught *The Science of Spiritual Life* John Cooper, 1867
