easily have an order of magnitude performance improvement compared to standard relational. Simpler queries Informix TimeSeries includes a large set of specialized functions that allow you to better express the processing that you want to execute. It even provides a toolkit so that you can add proprietary algorithms to the library. This IBM Redbooks publication is for people who want to implement a solution that revolves around time based data. It gives you the information that you need to get started and be productive with Informix TimeSeries.
