Mingardi, 2020-10-16 A common narrative of the post World War II economists was that the State is indispensable for guiding investment and fostering innovation They claimed that the wealth of the modern world is the result of past State guidance and that what is needed for future economic growth is more State guidance This position has recently been rejuvenated in reaction to the Great Recession of 2008 The truth is that the enriched modern economy was not a product of State coercion It was a product of a change in political and social rhetoric in northwestern Europe from 1517 to 1789 The Great Enrichment that came from human ingenuity emancipated from the bottom up not human ingenuity directed from the top down The true question is what on balance is the best way to organize innovation by the wise State or by commercially tested betterment The American Institute for Economic Research in Great Barrington Massachusetts was founded in 1933 as the first independent voice for sound economics in the United States Today it publishes ongoing research hosts educational programs publishes books sponsors interns and scholars and is home to the world renowned Bastiat Society and the highly respected Sound Money Project The American Institute for Economic Research is a 501c3 public charity The Adam Smith Institute is one of the world's leading think tanks recognised as the best domestic and international economic policy think tank in the UK and ranked 2nd in the world among Independent Think Tanks by the University of Pennsylvania Independent non profit and non partisan the Adam Smith Institute works to promote free market neoliberal ideas through research publishing media outreach and education The Institute is today at the forefront of making the case for free markets and a free society in the United Kingdom The Institute was founded in the 1970s as post war socialism reached its high watermark Then as now its purpose was to educate the public about free markets and economic policy and to inject sound ideas into the public debate **Pragmemes and Theories of Language Use** Keith Allan, Alessandro Capone, Istvan Kecskes, 2017-01-10

*The Sociology of Speed* Judy Wajcman, Nigel Dodd, 2017 There is widespread perception that life is faster than it used to be This book argues that popular and scholarly claims about acceleration gloss over the complex relationship of technology speed and time Rather than digital devices rushing us our experience of always being rushed is the result of the priorities and parameters we ourselves set

**Beyond Positivism, Behaviorism, and Neoinstitutionalism in Economics** Deirdre Nansen McCloskey, 2024-05-31 A penetrating analysis from one of the defining voices of contemporary economics In Beyond Positivism Behaviorism and Neoinstitutionalism in Economics Deirdre Nansen McCloskey zeroes in on the authoritarian cast of recent economics arguing for a re focusing on the liberated human The behaviorist positivism fashionable in the field since the 1930s treats people from the outside It yielded in Williamson and North a manipulative neo institutionalism McCloskey argues that institutions as causes are mainly temporary and intermediate not ultimate They are human made depending on words myth ethics ideology history identity professionalism gossip movies what your mother taught you Humans create conversations as they go in the economy as in the rest of life In engaging and erudite prose McCloskey exhibits in detail the scientific failures of neo institutionalism She proposes a humanomics an economics with the humans left in Humanomics keeps theory quantification experiment mathematics econometrics though insisting on more true rigor than is usual It adds what can be learned about the economy from history philosophy literature and all the sciences of humans McCloskey reaffirms the durability of market tested innovation against the imagined imperfections to be corrected by a perfect government With her trademark zeal and incisive wit she rebuilds the foundations of economics

Seeing Like a City Ash Amin, Nigel Thrift, 2017-05-23 Seeing like a city means recognizing that cities are living things made up of a tangle of networks built up from the agency of countless actors Cities must not be considered as expressions of larger paradigms or sites of human effort and organization alone Within their density size and sprawl can be found a world of symbols bodies

buildings technologies and infrastructures It is the machine like combination interaction and confrontation of these different elements that make a city Such a view locates urban outcomes and influences in the character of these networks which together power urban life allocating resources shaping social opportunities maintaining order and simply enabling life More than the silent stage on which other powers perform such networks represent the essence of the city They also form an important political project a politics of small interventions with large effects The increasing evidence for an Anthropocene bears out the way in which humanity has stamped its footprint on the planet by constructing urban forms that act as systems for directing life in ways that create both immense power and immense constraint

**Bourgeois Equality** Deirdre Nansen McCloskey, 2020-03-04 How standards of living have skyrocketed since 1800 and the political philosophy that made it possible Persuasive richly detailed and erudite Financial Times There's little doubt that most humans today are better off than their forebears Stunningly so the economist and historian Deirdre McCloskey argues in this concluding volume of her trilogy celebrating the oft derided virtues of the bourgeoisie The poorest of humanity McCloskey shows will soon be joining the comparative riches of Japan and Sweden and Botswana Why Most economists from Adam Smith and Karl Marx to Thomas Piketty say the Great Enrichment since 1800 came from accumulated capital McCloskey disagrees fiercely Our riches she argues were made not by piling brick on brick bank balance on bank balance but by piling idea on idea Capital was necessary but in the same way that oxygen is necessary for a fire Nor were institutions the drivers the World Bank orthodoxy of add institutions and stir hasn't worked McCloskey builds a powerful case for the initiating role of ideas ideas for electric motors and free elections of course but more deeply the bizarre and liberal ideas of equal liberty and dignity for ordinary folk Liberalism arose from theological and political revolutions in northwest Europe yielding a unique respect for betterment and its practitioners and upending ancient hierarchies Commoners were encouraged to have a go and the bourgeoisie took up the Bourgeois Deal and we were all enriched Few economists or historians write like McCloskey her ability to invest the facts of economic history with the urgency of a novel or of a leading case at law is unmatched She summarizes modern economics and modern economic history with verve and lucidity yet sees through to the really big scientific conclusion Not matter but ideas Big books don't come any more ambitious or captivating than *Bourgeois Equality*

**A Season with Verona** Tim Parks, 2012-01-23 Is Italy a united country or a loose affiliation of warring states Is Italian football which we Americans know as soccer a sport or an ill disguised protraction of ancient enmities After twenty years in the bel paese Tim Parks goes on the road to follow the fortunes of his hometown soccer club Hellas Verona to pay a different kind of visit to some of the world's most beautiful cities and to get a fresh take on the conundrum that is national character From Udine to Catania from the San Siro to the Olimpico

traveling with the raucous and unruly Verona fans whose conduct is a cross between that of asylum inmates and the Keystone Kops Tim Parks offers his highly personal account of one man's relationship with a country its people and its national sport The clubs are struggling as always to keep their heads above water in Series A The fans as always are accused of vulgarity racism and violence It's an election year and politics encroaches The police are ambiguous the journeys exhausting the referees unforgivable the anecdotes hilarious And behind it all is the growing intuition that in a world stripped of idealism and bereft of religion soccer offers a new and fiercely ironic way of forming community and engaging with the sacred
