have the aim to transform your brain and inflict in it the right mindset or concepts to get every job done by the simple activation of your brain The activation of your brain is the right mindset and it takes you away from your comfort zone automatically You will not need to be convinced from the moment you discover what your brain is capable of doing When i discovered my destiny i created more that 60 online training videos in one month i wrote sixteen relevant books of great content in 4 months while doing three jobs of roughly 60 hours a week You will say this is insane but i will tell you that i did it with pleasure and i can t stop today because it gets me more and more excited I discovered energy and i know who i am and who you are All you have to do is learn how to use your energy how to create and grow your potential and how not to waste it You already have everything you need but you need to know how to start and where to start This is where and how you should start by defining your destiny in less than seven words increase your reading and memory capacities to accelerate your education grow your self esteem to know who you are and how to increase your potential increase your mental equilibrium to control or react positively and correctly to control the world around you and increase you patience and courage to overcome every difficulty automatically before getting seriously into any business that you didn t create However remember that we learn from errors and whatever error you make you need to thank the universe You may have material riches but it takes a second to lose everything If you consider your brain the most important instrument in your world you can have and reproduce everything if you lose your material belongings You can transform your brain into a learning machine with lots of ease This is where your future starts and continues Free your mind and fill it with love as you go on through this journey of success Before you continue reading this book note that there are rules in this game The first rule is that there is no rule because you are the rule and you get just what you think or say So if you are negative at that is all you will get If you think and say only positive things even if you do not understand thank the universe and forgive yourself for not understanding You have more that one milion things happening around you and you get to notice not less that twenty things at a time and this keeps you unnecessarily worried Remain excited althrough these steps and apply what you learn No action no results more actions more results **There is no great genius without some touch of madness** IntroBooks Team,2019-12-04
