De Dageraad ,1860 De dageraad Vereeniging De Dageraad,1860 Het Vlaamse volkslied in Europa Albert Boone,1999 Het Hooglied van Salomo Abraham Hellenbroek,1735 **De weg naar het licht** Marina de Haan,2025-01-30 Bemoediging en motivatie voor de moderne pelgrim reizende of thuis aan de hand van de pelgrimspsalmen In De weg naar het licht betoogt journalist Marina de Haan dat het leven een pelgrimstocht is Of je nu gelovig bent of niet ieder mens is onderweg en gaat een eigen route Maar waar leidt de weg naar toe En wat of wie is de goede weg Aan de hand van de pelgrimspsalmen neemt Marina je mee op deze ontdekkingsreis Daarbij deelt ze ook openhartig over haar eigen leven met chronische ziekten Elk hoofdstuk is een bemoedigende brief om je te motiveren op je tocht Ieder deel van de reis sluit af met een meditatie **De Werken van T. Franklin and his companions At all times would this work be read with interest as giving in plain and simple language which vouches for its truth the first account of a forced winter residence in the Arctic Regions patiently and resolutely endured and successfully terminated but at the present moment it acquires a far deeper importance from its representation faint perhaps and wholly inadequate to the reality of the hardships which must have been undergone by our missing countrymen happy if some of them shall have survived like Gerrit de Veer to tell the tale of their sufferings and of their final deliverance from their long captivity In adverting to the causes which led to these three expeditions it would be quite superfluous to enter upon the general history of Arctic discovery All that is requisite for the proper elucidation of the present subject is an investigation of the actual state of our knowledge respecting the precise field of the labours of our Dutch navigators previously to the date of their adventurous undertaking Three centuries have now elapsed since the first attempt was made to discover a north east passage to China and India The circumstances under which this took place cannot be better detailed than in the words of Clement Adams in his account of the newe Nauigation and discoverie of the kingdome of Muscouia by the north east in the yeere 1553 which is printed by Hakluyt in the first volume of his Principal Navigations At what time our marchants perceiued the commodities and wares of England to bee in small request with the countreys and people about vs and neere vnto vs and that those marchandizes which strangers in the time and memorie of our auncesters did earnestly seeke and desire were nowe neglected and the price thereof abated although by vs carried to their owne portes and all forreine marchandises in great accompt and their prises wonderfully raised certaine graue citizens of London and men of great wisdom and carefull for the good of their countrey began to thinke with themselves howe this mischiefe might be remedied Neither was a remedie as it then appeared wanting to their desires for the auoyding of so great an inconuenience for seeing that the wealth of the Spaniards and Portingales by the discoverie and search of newe trades and countreys was marueilously increased supposing the same to be a course and meane for them also to obtaine the like they thereupon resolued upon a newe and strange nauigation And whereas at the same time one Sebastian Cabota 1 a man in those dayes very renowned happened to bee in London they began first of all to deale and consult diligently with him and after much speech and conference together it was at last concluded that three shippes should bee prepared and furnished out for the search and discoverie of the northerne part of the world to open a way and passage to our men for trauaile to newe and vnknown kingdomes And whereas many things seemed necessary to bee regarded in this so hard and difficult a matter they first make choyse of certaine graue and wise persons in maner of a senate or companie which should lay their heads together and giue their iudgements and provide things requisite and profitable for all occasions by this companie it was thought expedient that a certaine summe of money should publicquely bee collected to serue for the furnishing of so many shippes And lest any priuate man should bee too much oppressed and charged a course was taken that euery man willing to be of the societie should disburse the portion of twentie and five pounds a piece so that in short time by this meanes the summe of sixe thousand pounds being gathered the three

shippes were bought the most part whereof they prouided to be newly built and trimmed **Technomorphica** Joke Brouwer, Carla Hoekendijk, 1997 In this book fourteen contributors deal with the issue of the continuously progressive fusion of the biological with the technological Foreword **Het licht der wereld** Edwin Arnold, Hajo Uden Meyboom, 1892
