Seaforth World Naval Review 2016 Conrad Waters,2015-11-03 The cr me de la cr me of naval writers an extremely detailed overview of the last year in naval policy construction and deployment Warship World This annual has an established

reputation as an authoritative but affordable summary of all that has happened in the naval world in the previous twelve months. It combines regional surveys with one off major articles on noteworthy new ships and other important developments. Besides the latest warship projects it also looks at wider issues of importance to navies such as aviation and electronics and calls on expertise from around the globe to give a balanced picture of what is going on and to interpret its significance. This edition looks in detail at the Royal Navy as it faces the latest defense review and evaluates the Indonesian Navy while significant ships will include the USN's San Antonio class amphibious transports the new Dutch OPVs the Turkish Milgem class corvettes and the Greek Roussen class fast attack craft. There are also technological reviews dealing with naval aviation by David Hobbs focusing on maritime patrol aircraft while Norman Friedman surveys recent electronic warfare developments. Intended to make interesting reading as well as providing authoritative reference there is a strong visual emphasis including specially commissioned drawings and the most up to date photographs and artists' impressions. For anyone with an interest in contemporary naval affairs whether an enthusiast or a defense professional this annual has become required reading. A high quality deeply researched and handsomely illustrated book.

Army Rumour Service **India's Maritime Strategy** Shishir Upadhyaya, 2019-09-05 The first book by a former Indian naval intelligence officer on Sino-India relations. India's Maritime Strategy provides a unique insight into the Indian Navy tracing its post-independence growth and discussing its transformation and future in the 21st century. In the context of the rise of China's maritime power in the Indian Ocean this book provides a nuanced view of the extent and scope of India's maritime reach and the effect of this on Sino-Indian competition. Challenging the view that by developing a favourable environment alone India could seek to maintain its balance of power with China it is argued that despite durable bilateral security ties with most regional states India's maritime aspirations to be the primary net security provider for the region are unsustainable in the long term. This book presents a comprehensive coverage of India's bilateral maritime security engagements with all the Indian Ocean regional states as well as the US, France, UK and Russia. As such it will be useful to students and scholars of Indian and South Asian politics, international relations and maritime security.

Maritime Claims and Boundary Delimitation Nicholas A. Ioannides, 2020-09-27 This book delves into the major developments triggered by the hydrocarbon discoveries in the Eastern Mediterranean over the last twenty years, focusing on maritime boundary delimitation. Examining the impact that the hydrocarbon discoveries have had on the application of the law of the sea rules by the East Med states, the book looks at the new trends concerning the implementation of the law of the sea in the region. The book analyses regional state practice in terms of maritime delimitation, namely the conclusion of bilateral agreements based on the law of the sea rules, both conventional and customary, reflecting the East Med states' willingness to cooperate in order to reap the benefits of the energy windfall. Alongside this analysis, an outline of the

hydrocarbon discoveries and the pertinent maritime activities is given as well as further coverage of the overlapping maritime claims and disputes between Greece Cyprus and Turkey on one side and Lebanon and Israel on the other Moreover the book examines the validity of maritime claims made by or through non state entities in the region namely the State of Palestine the UK Sovereign Base Areas and the so called Turkish Republic of Northern Cyprus and their potential impact on the delimitation agreements already in place The book argues that the East Med paradigm concerning the successful application of the pertinent norms in maritime delimitation proves that international law is resilient and capable of providing solutions in other turbulent regions around the globe This book will be of interest and importance to academics and students of international law professionals in the oil and shipping industries legal professionals and government agencies
