Abstract The purpose of this study was to determine the effect of a 12-week, low-intensity, low-impact, and low-impact aerobically and resistance training program on the physical fitness of sedentary, middle-aged women. The program was designed to be safe and effective for women with no previous exercise experience. The program consisted of three sessions per week, each lasting 30 minutes. The first session was a low-intensity aerobic workout, the second was a low-impact aerobic workout, and the third was a low-impact resistance workout. The program was evaluated using a variety of physical fitness tests, including heart rate, blood pressure, and body composition. The results of the study showed that the program had a positive effect on the physical fitness of the women, with significant improvements in heart rate, blood pressure, and body composition. The program was well-tolerated by the women, and they reported feeling more energetic and confident after the 12-week program.

Blumberg on Corporate Groups Phillip I. Blumberg,2005-01-01 This new five volume Second Edition of Blumberg on **The McDonaldization of Society 6** George Ritzer,2011 As one of the most noteworthy and popular sociology books of all time The McDonaldization of Society 6 demonstrates the power of the sociological imagination to 21st century undergraduates in a way that few other books have This engaging work of social criticism is praised for sparking debate in and out of the classroom and for allowing students to read in depth on a small number of fascinating topics and it vividly demonstrates the relevance of Weber's discussion of rationalization the basis of McDonaldization to the everyday life of today's student New and Retained Features Links a large number of social phenomena to McDonaldization some which are directly impacted by the principles of the fast food chain and others where the effect is more tenuous A new final chapter 10 on The DeMcDonaldization of Society examines the processes of deMcDonaldization and concludes that while it is occurring on the surface McDonaldization is alive and well for example in the structures that underlie Web 2.0 Many new and updated examples are from the digital world keeping the text ultimately relevant for the contemporary student reader Addresses the advantages of McDonaldization then focuses on the problems and dangers it poses and looks at efforts to deal with those challenges Examines the link between McDonaldization and globalization Challenges the reader to rethink McDonaldization as part of the structure of society and to act to reverse the trend towards it

The McDonaldization of Society George Ritzer,2018-01-12 The book that made McDonaldization part of the lexicon of contemporary sociological theory read by hundreds of thousands of students is now in its Ninth Edition George Ritzer's seminal work of critical sociology The McDonaldization of Society continues to stand as one of the pillars of modern day sociological thought Building on the argument that that the fast food restaurant has become the model for the rationalization

process today this book links theory to contemporary life in a globalized world and resonates with students in a way that few other books do Ritzer opens students eyes to many current issues and shows how McDonaldization s principles apply to other settings especially in the areas of consumption and globalization Through vivid story telling prose Ritzer provides an insightful introduction to this fascinating topic and aids students critical development This new edition has been fully updated to include a new focus on McDonaldization in the digital world *Air Transport and Operations* Lori Fischer,David Pérez,Kurt Klein,Jacco Hoekstra,P. Roling,2012-10-15 Air transport must evolve if it is to optimize its value in the 21st century The mood in the aerospace industry is positive with regard to economic recovery but the focus in this transitional time must be on sustaining value without losing sight of environmental and safety priorities This book presents the proceedings of the joint conference held in Delft the Netherlands in June 2012 incorporating the 3rd International Air Transport Operations Symposium ATOS the 3rd Association of Scientific Development in Air Traffic Management in Europe ASDA Seminar the 6th International Meeting for Aviation Products Support Processes IMAPP and the 2012 Complex World Seminar The conference brought together over 200 participants from industry and academia all of whom share the common goal of improving performance and capacity by advancing the efficiency sustainability and safety of air transport Presentations at the conference were divided equally between academic papers and more applied industry sessions The book includes the majority of academic papers presented at the conference and provides a wide overview of the issues currently of importance in the world of air transport **Reinventing Management** Julian Birkinshaw,2012-04-25 The economic crisis was not just caused by a failure of regulation or economic policy it was a story of the failure of management in a fundamental sense a deeply flawed approach to management that encouraged bankers to pursue opportunities without regard for their long term consequences and to put their own interests ahead of those of their employers and their shareholders The revised edition of this best selling book shows convincingly that many of today s major economic problems in the west can be traced to a failure of management In this updated edition the author draws our attention to new examples of failed management from Rupert Murdoch s News Corp and the disaster at BP to the ongoing problems in financial services companies such as UBS and RBS Throughout the book the references and statistics have been updated to make this a current highly relevant analysis of the problems besetting modern business and how managers need to tackle them Franchise Opportunities Handbook United States.
