The Org Ray Fisman, Tim Sullivan, 2013-01-08 We create organizations because we need to get a job done something we couldn't do alone and join them because we're inspired by their missions and our paycheck But once we're inside these organizations rarely feel inspirational Instead we're often baffled by what we encounter clueless managers a lack of clear objectives a seeming disregard for data and the vast gulf between HR proclamations and our experience in the cubicle So where did it all go wrong In The Org Ray Fisman and Tim Sullivan explain the tradeoffs that every organization faces arguing that this everyday dysfunction is actually inherent to the very nature of orgs The Org diagnoses the root causes of that malfunction beginning with the economic logic of why organizations exist in the first place then working its way up through the org's structure from the lowly cubicle to the CEO's office Woven throughout with fascinating case studies including McDonald's al Qaeda the Baltimore City Police Department Procter and Gamble the island nation of Samoa and Google The Org reveals why the give and take nature of organizations while infuriating nonetheless provides the best way to get the job done You'll learn The purpose of meetings and why they will never go away Why even members of al Qaeda are required to submit Travel Expense reports What managers are good for How the army and other orgs balance marching in lockstep with fostering innovation Why it's the hospital administration not the heart surgeon who is more likely to save your life That CEOs often spend over 80% of their time in meetings and why that's exactly where they should be and why they get paid so much Looking at life behind the red tape The Org shows why the path from workshop to corporate behemoth is pockmarked with tradeoffs and competing incentives but above all
