 Peter van Lieshout,Robert Went,Monique Kremer,2025-10-01 Development aid has become the subject of much discussion
 Why do we give aid and does it help What do we know about the development paths being taken by various countries or the
 possibilities of helping them to achieve their goals from outside How relevant is development aid now that remittances and
 foreign direct investments have increased as a result of globalization When does aid have more negative than positive effects
 What is the significance of shifting power relations in the world And do policies focusing on issues like climate migration
 financial stability knowledge trade and security not have a greater impact than aid on the development opportunities of poor
 countries These questions inspired the Dutch Scientific Council for Government Policy WRR to examine what form
 development aid should take in the era of globalization At the start of 2010 on the basis of over 500 interviews with experts
 and an extensive literature survey the WRR presented its far reaching recommendations In October 2010 the new Dutch
 government decided to use the report as the basis of a thorough modernization of its development policy This book is based
 on the WRR report It builds on the many responses to the report resulting in more elaboration on specific lines of reasoning
 coverage of new themes and more comprehensive analyses without changing the core of the original report **Educational**
