, *Beyond Illiberalism* Robert Shepherd, 2025-03-11 Arguing that there has never been a consensus on which rights all people are entitled to, *Beyond Illiberalism: Rights Rhetoric and Reality in a Pluralistic World* traces how the concept of human rights is tied to a global project rooted in colonialism and grounded in nineteenth century liberalism and post World War II social democratic principles. This book contends that human rights are conceived, imagined and promoted by dominant states, organizations and activists within a specific liberal framework and that after more than 200 years the dream of a universal history rooted in the worldview of G W F Hegel has been displaced by the stuff of practical reality. Robert J Shepherd shifts our attention to rights as a matter of human practice and emphasizes the importance of the actualization of rights within local contexts, demonstrating the spuriousness of categorizing governments as liberal or illiberal based on preconceived notions of what counts as legitimate rights. This book will appeal to scholars of anthropology, sociology, socio-legal studies and cultural studies.

**The UN Committee on Economic, Social and Cultural Rights** Marco Odello, Francesco Seatzu, 2020-07-24 The book concerns the study and analysis of the UN Committee on Economic, Social and Cultural Rights from an international legal perspective, taking into consideration the adoption of the 2008 Optional Protocol to the International Covenant on Economic, Social and Cultural Rights (ICESCR). The volume provides a detailed account of the structure and functioning of the Committee on Economic, Social and Cultural Rights in the light of its jurisprudence through a study of the Committee's procedures and practices, periodic reports and general comments, including taking into account the Optional Protocol for individual complaint procedure. The book considers the possible implications of the work of this Committee on other UN Committees such as the Human Rights Committee and the UN Committee on the Rights of the Child, as well as considering the repercussions of its work on the international protection of fundamental rights such as the right to education, to health and adequate food. The UN Committee on Economic, Social and Cultural Rights will be of particular interest to academics and students of International and Human Rights law.

*Making Globalization Happen* Vijayashri Sripathi, 2024 In *Making Globalization Happen: The Untold Story of Power, Profits, Privilege*, Sripathi explains how, when, through which entities and for what purposes economic globalization was catalyzed and its effects on the Global South in general and South Asia in particular. Based on an innovative international constitutional political economy framework, Sripathi examines how the Western classical liberal constitution has shaped international law developments in this post-colonial era, given its salience and comprehensive scope. Presenting a comprehensive narrative of economic globalization, *Making Globalization Happen* accurately and comprehensively links constitutional globalization to the following UN family created agendas: peacebuilding, conflict prevention, human security, protection of civilians, sustainable development, global war on terrorism, women's peace and security, poverty reduction, or market-oriented development, ending conflict-related sexual violence and justice, climate, criminal and transitional. Sripathi simultaneously provides the missing constitutional foundation for

globalization and the fields that it has spawned global studies and law and political economy With these ground breaking insights Making Globalization Happen The Untold Story of Power Profits Privilege clearly illustrates who drove constitutional globalization and for whose benefit the UN family and transnational capitalists Thus it rips away the facade of UN family driven peace justice human rights democracy and development to expose it as a narrative of power profit and privilege for transnational capitalists and debt death and despair for the Global South

**The Palgrave Handbook of Political Norms in Southeast Asia** Gabriel Facal,Elsa Lafaye de Micheaux,Astrid Norén-Nilsson,2024-06-07 This open access handbook aims to constitute a reference point on political norm dynamics in Southeast Asia by bringing together the array of normative repertoires that frame the possibilities for citizens to participate in set agendas for make decisions in and contest not only electoral and institutional politics but also informal and imaginary political spaces It sheds light on intersecting political and social transformations and their consequences from the vantage point of political norms While chapters lay out and analyse how political norms across Southeast Asia have been shaped in successive historical phases the core of the handbook addresses current dynamics involved in defining and transforming political norms

**Human Rights** Judith Blau,Alberto Moncada,2005-02-25 There is growing recognition around the globe that people s fundamental human rights are being imperiled in a world economy that is being driven by multinationals investors and banks The race to the bottom and insatiable greed has intensified poverty and economic inequalities fueled migration and rapidly accelerated environmental degradation The fates of all nations are interdependent and even though the U S is the prime driver of the new economy Americans have likewise experienced declines over the past decades Blau and Moncada outline the fundamental human rights that all people are entitled to and the important role that nations have in upholding these rights Americans find it somewhat difficult to accept the basic premise of human rights because liberalism as a social political and economic ethos powerfully undercuts the premise of human rights American liberalism highlights the efficacy of individual achievement and individual autonomy thereby promoting the idea that people have no rights to security Human rights in contrast to the liberal ethos asserts that all humans have inalienable rights including rights to a job housing social security education and a cultural racial or ethnic identity Under the conditions of a turbulent global economy human rights need to be granted the highest standing The authors consider global capitalism as well as the role of the global media and the problematic relationship between the state and society in America In the final chapter we review the many currents of transformative movements that are promoting a more equitable fairer and more egalitarian world

**The Human Right to Housing in the Face of Land Policy and Social Citizenship** Michael Kolocek, 2017-08-02 This book explores the human right to housing presenting the findings of a global discourse analysis to analyse the right to housing from the perspective of theories on land policy and social citizenship The book concludes that planners and policy makers will not be able to completely fulfil the human right to housing For that reason the book presents a theory of de commodification of land use that highlights the meaning of land use rights for people affected by inadequate housing Students and scholars across a range of disciplines including social policy global social policy

human rights law discourse theory and sociology will find this study of interest

**The enforceability of the human right to adequate food** Bart Wernaart, 2023-09-04 While the right to adequate food is often discussed in the context of developing countries especially in situations where access to adequate food is a problem on a larger scale this book focusses on the right to food in two Western countries in which theoretically the circumstances allow this right to be enjoyed by each individual Through a legal comparative study the enforceability of the right to food is compared between the Netherlands and Belgium in light of the current UN Human Rights system There seems to be a difference between what the countries do what they say they do and what they should do on the matter As it appears the coincidental constitutional circumstances mainly determine the enforceability of the right to food rather than the content of the human right in itself This book includes a thorough analysis of suitable comparative legal methodology and the embedment of the right to food in the UN human right system Furthermore for both countries an in depth analysis of the case law on the right to food mostly concerning the status of foreigners the constitutional context in which the Judiciary operates and the relevant UN reports and subsequent procedures are outlined Finally recommendations are made to both countries and the relevant UN Committees

*The Contest and Control of Jerusalem's Holy Sites* Marshall J. Breger, Leonard M. Hammer, 2023-08-17 The Holy Places of Jerusalem s Old City are among the most contested sites in the world and the ground zero of the Israeli Palestinian conflict Tensions regarding control are rooted in misperceptions over the status of the sites the role of external bodies such as religious organizations and civil society and misunderstanding regarding the political roles of the many actors associated with the sites In this volume Marshall J Breger and Leonard M Hammer clarify a complex and fraught situation by providing insight into the laws and rules pertaining to Jerusalem s holy sites Providing a compendium of important legal sources and broad form policy analysis they show how laws pertaining to Holy Places have been implemented and engaged The book weaves aspects of history politics and religion that have played a role in creation and identification of the law It also offers solutions for solving some of the central challenges related to the creation control and use of Holy Places in Jerusalem

Exponential Inequalities Shreya Atrey, Sandra Fredman, 2023 This edited volume addresses the operation of equality and discrimination law in times of crisis It seeks to understand how existing inequalities are exacerbated in crises and whether equality law has the tools to understand and address this Drawing together international experts the book takes an interdisciplinary and comparative approach

**Research Handbook on the WTO Agriculture Agreement** Joseph McMahon, Melaku Gebeye Desta, 2012-01-01 The range of topics covered in this volume is multi faceted and various Practitioners with clients involved in agri business will be particularly interested in the broad spectrum of matters discussed as will trade negotiators policy advisors and graduate students in this vital and fascinating field Phillip Taylor MBE and Elizabeth Taylor The Barrister Magazine Agriculture has been the unruly horse of the GATT WTO system for a long time and efforts to halter it are still ongoing This Research Handbook focuses on aspects of agricultural production and trade policy that are recognized for their

importance but are often kept out of the limelight such as the implication of national and international agricultural production and trade policies on national food security global climate change and biotechnology It provides a summary of the state of the WTO agriculture negotiations as well as the relevant jurisprudence but also and uniquely it focuses on the new and emerging issues of agricultural trade law and policy that are rarely addressed in the existing literature With contributions from a multi disciplinary team of leading analysts from around the world this Research Handbook will appeal to trade negotiators international trade law and policy academics as well as postgraduate students in the field

**Historical Dictionary of Democracy** Norman Abjorensen, 2019-06-15 Democracy is easy to talk about but hard to define in other than broad generalizations its history is a long complex and contested subject What this volume seeks to do is to explore the general evolution of political and social thinking that would eventually coalesce into what we now know as democracy for all its imperfections and shortcomings The question of just why some societies evolved into a democratic trajectory and others did not continues to engage the interest of historians political scientists sociologists and anthropologists Much conjecture surrounds the rise of certain elements we now recognize if not as democratic then proto democratic such as collective decision making constraints on the exercise of power and a degree of accountability of the ruler to the ruled If democracy in the sense of rule by the people has two essential qualities rule by the majority and the equal treatment of free citizens then its origins however feeble are to be found in these early examples of government Historical Dictionary of Democracy contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries This book is an excellent resource for students researchers and anyone wanting to know more about democracy

**The OIC, the UN, and Counter-Terrorism Law-Making** Katja Samuel, 2013-10-31 The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter terrorism activities should occur at every level including that of intergovernmental organizations This unique timely and carefully researched monograph examines one such important yet generally under researched and poorly understood intergovernmental organization the Organization of Islamic Cooperation OIC formerly the Organization of the Islamic Conference In particular it analyses in depth its institutional counter terrorism law making practice and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter Terrorism Strategy goals Furthermore it explores two common mis assumptions regarding the OIC namely whether its internal institutional weaknesses mean that its law making practice is inconsequential at the intergovernmental level and whether its self declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law Where significant normative tensions are discerned between OIC law and UN law the monograph explores not only whether these may be explicable at least in part by the OIC s Islamic nature and objectives but also whether their corresponding institutional legal orders are conflicting or cooperative in nature and the resultant implications of these findings for

international counter terrorism law and policy making This monograph is expected to appeal especially to national and intergovernmental counter terrorism practitioners and policy makers as well as to scholars concerned with the interaction between international and Islamic law norms From the Foreword by Professor Ben Saul The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC Islamic law international law and counter terrorism It fills significant gaps in legal knowledge about the vast investment of international and regional effort that has gone into the global counter terrorism enterprise over many decades and which accelerated markedly after 9 11 The scope of the book is ambitious its subject matter is complex and its sources are many and diverse Dr Samuel has deployed an appropriate theoretical and empirical methodology harnessed an intricate knowledge of the field and brought a balanced judgement to bear to bring these issues to life

**Corporate Social Responsibility and Human Rights in Asia** Robert J. Hanlon, 2014-04-16 As globalization has brought about new concerns and responsibilities for business particularly in the realm of human rights many multinational corporations MNC operating in Asia have argued that such rights are the responsibility of government However as globalization continues to improve market access for MNCs it increasingly exposes them to new forms of transnational social movements and as a result the private sector has emerged as one of the central stakeholders in the region s human rights dialogue Taking three of Asia s fastest emerging economies Cambodia China and Thailand as its starting point Corporate Social Responsibility and Human Rights in Asia explores the business case for corporate social responsibility human rights and anti corruption in the region In doing so it examines how industry perceives human rights and corruption within the corporate social responsibility CSR paradigm and builds on the argument that the CSR regime is a socially constructed concept Drawing on interviews with key stakeholders including business leaders nongovernmental organizations international organizations and government officials Robert Hanlon argues that industry perceives human rights as outside their sphere of influence that divergent stakeholder interests are side lining the human rights debate and that human rights are increasingly ignored in the quest for profit maximization This leads to the conclusion that human rights and corruption will remain peripheral business issues until stakeholders find new ways of creating space for CSR engagement and business actors will continue to marginalize the human rights issue so long as governments in the region let them This interdisciplinary book draws on political science business and sociological perspectives and as such will be of great interest to students and scholars working across the fields of Asian business corporate social responsibility and business ethics human rights and international political economy

*International Courts and Domestic Politics* Marlene Wind, 2018-07-12 International law in national courts and among politicians and citizens does not always have the desired effect at the domestic level This volume is a genuinely interdisciplinary analysis of international law and courts examining a wide range of courts and judicial bodies including human rights treaty bodies and their impact and shortcomings By employing social science methodology combined with classical case studies leading lawyers and

political scientists move the study of courts within international law to an entirely new level The essays question the view that legal dogmatics will be enough to understand the increasingly complex world we are living in and demonstrate the potential benefits of adopting a much broader outlook drawing on empirical legal research This volume will have great appeal to anyone interested in the effects rather than just the processes and structures of international law and courts

**The External Dimension of EU Social Security Coordination** Pauline Melin, 2019-12-09 In *The External Dimension of EU Social Security Coordination Towards a Common EU Approach* Pauline Melin provides a detailed legal analysis of the framework on social security coordination with third countries and offers alternative policy solutions to the current fragmented approach The analysis comprises a complete overview of the EU approach to social security coordination with third countries 9 bilateral agreements between Belgium Germany and the Netherlands with respectively India Turkey and USA and international standards Based on this analysis the author explores the possibility from an institutional perspective to develop a common EU approach through the conclusion of EU agreements The author concludes by favouring an alternative softer solution through an EU model agreement and proposes that the content of that model agreement be based on the best practices of the current framework
