

Sources of Law

Name: _____

Where do our laws come from?

Laws keep our society running as smoothly as possible. When you think of the law, you probably think of rules that say what people can and can't do. We all know that you cannot steal from others without getting into trouble. That's one example of a law, but most laws set rules for how things work. There are laws about how people buy and sell property, how we elect government officials, and how activities in daily life should work. Where do all these laws come from? There are three main sources of law in the United States: constitutions, statutes, and regulations.

A collection of law books.

U.S. Constitution

Alabama State
Constitution

Alaska State
Constitution

Arizona State
Constitution

Arkansas State
Constitution

(Keep going for all
50 states!)

Constitutions

The United States Constitution is often called "the supreme law of the land." That means no law in the country can violate the rules, laws, and rights set forth in the Constitution. Some parts of the Constitution give specific laws that apply everywhere in the United States. For example, if someone commits a crime in one state and then flees to another state, the Constitution allows the criminal to be extradited, or sent back, to the state where the crime was committed.

Other parts of the Constitution either authorize (allow) types of laws that may be passed or forbid (ban) certain types of laws. For example, the Constitution allows Congress to pass laws about how business is conducted across state lines. The Constitution forbids Congress from passing laws that limit peoples' freedom of religion. The bottom line is that no law can be made in the U.S. unless the Constitution allows it to be made.

Each state also has its own constitution that works the same way as the U.S. Constitution, but only applies to that state. Many laws in your state come from your state's constitution and do not apply outside your state. Even so, laws in state constitutions must not violate the U.S. Constitution.

Statutes

The Constitution gives Congress permission to pass laws about a limited number of topics. When Congress passes a law, that law is called a **statute**. Statutes passed by Congress apply to the entire United States. All of the thousands of statutes passed by Congress are collected together and organized by subject. The collection is called the **United States Code**.

For example, the Constitution says Congress has the power to "establish post offices" and pass any laws "necessary and proper" for carrying out that power. This means that Congress can establish post offices and pass all the laws needed for running a postal service. In the part of the U.S. Code that deals with post offices, you would find a statute that establishes the United States Postal Service. You would also find many other statutes having to do with running the U.S. Postal Service. There are statutes about what can and can't be sent through the mail, how the Postal Service must manage its money, working for the Postal Service, and many more.

A post office in New York.
