## Icons In Czechoslovakia:

**Icons in Czechoslovakia** Heinz Skrobucha,1971 This volume draws attention to the magnificent icons to be found in Czechoslovakia but which today are half forgotten by the general public The influence of city culture in these villages is very small so that what developed is folk art icon painting with lively colours simplification of composition strong stylisation and rich ornamentation characteristics often absent in Russian and Greek icon painting

**Icones in Czechoslovakia** Heinz Paul Gerhard Skrobucha,1971 Icons in Czechoslovakia. Photography by Ladislav Neubert. (Translation of Introduction by Neil Morris. Translation of Notes to the Plates by Simon Pleasance.). Heinz Peter Gerhard SKROBUCHA,1971 *A History of Czechs and Jews* Martin Wein,2015-02-11 Was Israel founded by Czechoslovakia A History of Czechs and Jews examines this question and the resulting findings are complex Czechoslovakia did provide critical secret military sponsorship to Israel around 1948 but this alliance was short lived and terminated with the Prague Trial of 1952 Israel s Czech guns were German as much as Czech and the Soviet Union strongly encouraged Czechoslovakia s help for Israel Most importantly however the Czechoslovak Israeli military cooperation was only part of a much larger picture Since the mid 1800s Czechs and Jews have been systematically comparing themselves to each other in literature music politics diplomacy media and historiography A shared perception of similar fates of two small nations trapped between East and West in constant existential danger helped forge a Czech Jewish national friendship amid periods of estrangement Yet this Czech Jewish national friendship an idea that can be traced from Masaryk and Kafka via Weizman and Ben Gurion to Havel and Netanyahu was more myth than reality Relations were often mixed and highly dependent on larger historical developments affecting Central Europe and the Middle East As the Czech Republic emerges as Israel s main EU ally this book provides a timely analysis of this old new alliance and is essential reading for students and scholars with an interest in History and Jewish Studies *Library of Congress Subject Headings* Library of Congress,1992

**Byzantium in the Czech Lands (4th-16th centuries)** Petr Balcárek,2022-11-28 This book offers the first comprehensive study of Byzantine influence on the art and iconography of East Central Europe Petr Balc rek focuses on the Byzantine cultural and religious legacy in the Czech lands thereby bringing to light rarely seen images and presenting fresh hypotheses based on newly explored theological interpretations and historical evidence Including a discussion of the Czech and Slovak historiography on Byzantine studies the work analyses significant artistic and iconographical artefacts in light of the intricate historical and political relationships that shaped Byzantine presence in these territories comparing them with similar objects from other areas of Byzantine influence in order to draw wide reaching conclusions *Library of Congress Subject Headings* Library of Congress. Subject Cataloging Division,1988 Iconic Turns Liliya Berezhnaya,Christian Schmitt,2013-06-01 After the epochal turn of 1989 a new wave of movies dealing with the complex entanglement of religious and national identity has emerged in the eastern part of Europe There has been plenty of evidence

for a return of nationalism while the predicated return of religion is envisaged on a larger scale as a global phenomenon. The book suggests that in the wake of the historical turns of 1989 an iconic turn has taken place in Eastern Europe in the form of a renewed cinematic commitment to make sense of the world in religious and or national terms. *Iconic Turns* combines theoretical articles on the subject with case studies bringing together researchers from different national backgrounds and disciplines such as history, literary and film studies. Rather than a stark unbroken line dividing East and West in Cold War Europe, the Iron Curtain was instead made up of distinct landscapes, many in the grip of divergent historical and cultural forces for decades, if not centuries. This book traces a genealogy of one such landscape, the woods between Czechoslovakia and West Germany, to debunk our misconceptions about the iconic partition. Yuliya Komska transports readers to the western edge of the Bohemian Forest, one of Europe's oldest borderlands, where in the 1950s civilians set out to shape the so-called prayer wall. A chain of new and repurposed pilgrimage sites, lookout towers and monuments, the prayer wall placed two long

standing German obsessions forest and border at the heart of the century's most protracted conflict Komska illustrates how civilians used the prayer wall to engage with and contribute to the new political and religious landscape In the process she relates West Germany's quiet sylvan periphery to the tragic pitch prevalent along the Iron Curtain's better known segments Steeped in archival research and rooted in nuanced interpretations of wide ranging cultural artifacts from vandalized religious images and tourist snapshots to poems and travelogues *The Icon Curtain* pushes disciplinary boundaries and opens new perspectives on the study of borders and the Cold War alike *Czech and Polish Sound Memories of the Second World War* Radmila Švaříčková Slabáková, Marcin Filipowicz, Dobrawa Lisak-Gębala, Sławomir Wieczorek, Andrea

Hanáčková, 2025-11-03 This book investigates the crucial yet often overlooked role of sound in shaping the memory of the Second World War Through an interdisciplinary and transnational approach this volume addresses a notable gap in memory studies and argues that auditory experiences are central to how war is remembered commemorated and narrated By placing sound at the heart of collective remembrance this book reveals how sonic elements influence public discourse shape collective identities and contribute to the evolving transformation of war memory Bringing together scholars from the Czech Republic and Poland this volume examines how the Second World War has been remembered through sound since the 1990s across three distinct media museum exhibitions prose fiction and sound art including soundwalks and field recordings This innovative framework underscores the importance of exploring how different media evoke and reproduce sound to grasp the complexity and diversity of wartime memory in Central Europe Focusing on Czech and Polish memory cultures the book demonstrates that sound may function in multiple and sometimes contradictory ways as a means of reinforcing national narratives as a tool for critical engagement or as a medium for experimental and marginal perspectives This volume is essential reading for scholars in memory studies sound studies cultural and public history museology literary theory and musicology as well as for museum professionals and anyone interested in how the past resonates literally and metaphorically through sound **The New Icon** Arun Shourie, 2025-01-24 Did Savarkar battle a stormy sea when he attempted his
